Telephone Talk
by
CHARLES A. HARRIS
Your Telephone Manager

AS A SOUTHERN BELL TELEPHONE USER, did you know you can call any of the three telephones in the British Virgin Islands? And if that doesn't impress you, did you know, you can also call more than 140,000,000 other telephones, 98 per cent of all the telephones in the world?

* * *

TIP TO TEEN-AGERS: You can have your name listed in the telephone directory for less than two pennies a day.

TIP TO *PARENTS* OF TEEN-AGERS: Your teen-agers have their own room. Why not their own telephone?

* * *

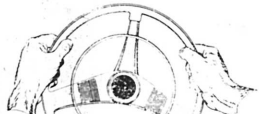
THE WORK OF BELL TELEPHONE LABORATORIES is one big reason why your telephone service gets better, more efficient every year. At the Laboratory, over 3,000 engineers, scientists and researchers study the art of communications, devise ways to improve telephone facilities, increase the speed and efficiency of telephone service. The result of their work is the world's finest telephone system, and more telephones in the U. S. than in all other countries combined.

* * *

IF YOU'RE BEING *VERY* EFFICIENT and planning your Christmas giving list now, why not consider giving telephones. Moms, dads, teen-agers all need a phone of their own. Phones come in many pretty styles and colors, are sure to be enjoyed all year 'round. Sound like a good idea? Then why not talk it over with your telephone serviceman or call our business office.

* * *

THE RING OF YOUR TELEPHONE IS A HAPPY SOUND, particularly when you're home alone. . . . kept indoors by the rain . . . celebrating a special occasion . . . waiting for important news. Isn't there someone, somewhere who would welcome the sound of your voice? Call now. You'll both be glad you did.



I'm Just A Steering Wheel

I'm Just A Wheel — A steering wheel. Behind me you're the master of a miracle. You can make me take the kids to school. You can turn me down the sunny road toward town. With me you can guide you round the market you can rush me back to be loaded your car in minutes to starve hour away. With me you can do magic.

Let in the blink of an eye, in the lick of your watch, I can turn deadly killer. I can snuff out the life of a kid still full of life — maybe YOUR KID. I can bend a smile into tears. I can wreck and cripple and destroy. I can deal out death like the plague.

And I'll be respector of persons. A child, a grandmother, even YOU, my friend . . . I'll all the same thing.

I respond instantly to the hands you give me. Give me calm hands, steady nerves, careful hands . . . and I'll be your friend. But give me unsteady hands, reckless hands . . . then I'm your enemy, a menace to the life, happiness, the future of every person, every youngster riding, walking, playing.

I was made for pleasure and usefulness. Keep me that way. I'm in your hands. I'm just a steering wheel. But behind me you're the master of a miracle . . . or a tragedy. It's up to you!
