Some poets and many people prefer different seasons of the year, some the hazy autumn days, or winter wonderland. I love the springtime - the awakening of all nature—the birds and flowers and rippling streams and summers golden beauty.

NO SCHOOL TODAY, BOYS--The clock says 8:15, but with water on the floors and dripping through the ceilings from second floor to the cafeteria in the basement, it wasn't anyplace for studies--the only courses "taught" were those of sweeping and mopping.

ALICE ABERCROMBIE TRAVELED 103½ MILES IN HER ROCKING CHAIR TODAY

Alice believes in getting plenty of mileage from her telephone. Today she visited a friend all the way across town. Went to the drugstore. The cleaners. The toy shop. Reminded 22 members of next Tuesday's circle meeting. Small wonder Alice values her phone so much. Because no matter how many local calls, the cost remains the same. Does any other modern convenience *you* have do so much for so little?
