

We Said Before, We Say It Again!

The Editor of this paper does not profess to be a political analyst, nor does he often reach a point where he feels that he can add words of wisdom to the people, but occasionally a situation presents itself so plainly, he feels he would be wrong not to speak through the columns of his newspaper to his fellow citizens. Certainly the time has come to remind the citizens of Nicholas County that they should vote for a man who has promised to carry Kentucky forward for another four years along the lines and paths followed these last four years.

Let's think together and take stock for a few moments and see what has happened during the Combs Administration.

1. By the end of 1963, Nicholas County will have at least 14 roads black-topped for the first time, and if we can continue this type of program, it would mean that all roads will probably be paved within two or three years. How many other counties can boast of such a record in the last four years? The County now owns its own equipment because of a new "cooperative plan" worked out by the State Highway Department. Isn't this what we wanted?

2. A 4-H Camp located in Nicholas County—not in some of the twenty-six other counties that were actively seeking it, but our own county. What did this camp do for us? It taught us how to work together as a team. It taught us that we can raise money on a county-wide basis when we are doing it on a "worth while" case. It will bring in new business and will stimulate our economy, but best of all it will be a training place for the young people who will be our leaders of tomorrow.

3. A lake project that will create a 150 acre lake to attract non-citizens to our community, that will provide employment in its development of fishing, boating, and other recreational activities; that will attract tourists who will stop and spend money in our county. Who will be the beneficiary? The County as a whole will reap these benefits. The project is being financed by a non-profit group that is working for

the good of the County as a whole.

A new Nicholas County Library and new Regional Library - Yes, Nicholas County is the headquarters for the finest cultural benefits. Four other counties had the chance for it, but Nicholas County obtained it. Do we want to have it any more?

4. A removal of unsightly plants along our roads by the adoption of a new law restricting junk dealers to move back from the highway 2000 feet. This law was helped on its way by joint action of citizens in Nicholas County as well as our 119 other counties because they believe in the beauty of our State.

5. The raising of educational benefits, particularly to our teachers, who, until the last three years might be considered other states (except that they could not send their children to a decent living in their own State). Yes, even the final merging of all of our school systems into one single unit can be credited to foresight of men who had guidance and leadership of present State Educational officials.

6. Help for the elderly which was never possible before in the form of increased monthly benefits, hospital, medical, dental, and drug now available that were unheard of before 1963. Did we want our elderly people want to see them, and with hospital and medical services at all? To the contrary, we want to give them so that they can live in decency and dignity in their elderly days.

7. A new swimming pool at Blue Licks State Park. Are not all of these things to our mutual good?

Your fellowman submits to the citizens of this county that he has been here for them and for their future. He says his fellow man is something that is not to be treated as a commodity. He says that the things that have happened in the last four years is something that is not to be treated lightly.

animal or bird could find unless a container out and filled it daily. I have tried to do that also it has taken several trips a day. Another week has passed and here it Friday again as this is being written.

One hot, dry morning last week, a little sparrow was getting himself a snack of sunflower seed from a dried up plant across the street. The seed was hot and dry too, as I watched from the porch. All of a sudden that bird stopped eating and stared at the makeshift birdhab in my yard. Cautiously sliding down he got a closer view. Yes, it was water! Tasting a drop, then another, he perched on the rim of the old automobile tire and dipped first one foot then the other into the water. Then dunked head and ears and the tiny bird several times. Then flew away!

I have no idea where that bird went, but he seemed in a big hurry. In less than five minutes someone arrived by pairs and in groups. Such laughing and "talking" and spouting is seldom seen or heard. One little imp rolled in the last of the old automobile tire and the water once more before leaving for the "old swimmin' hole" for the enticing sunflower on the other side of Morgan street.

ing hands. He said he was in Washington, D. C. at midnights, but all would be easy after reaching Ashland. I was likely you know Carter Cave is, but I don't know. Anyway, the Carlisle delegation kept going. First thing anyone realized they were in the city of Ashland and our Service man was getting out at the place to meet his buddies enroute to Washington. There was a familiar face in the crowd and the mention of Carlisle that caused Mrs. Adrian Anderson to look at the boy and say, "Do you know Bill Vaughn in Carlisle?" It was his turn now to take another look he yelled, "I sure do, he's my daddy!" The beaming soldier was none other than Bobbin Vaughn, a son of Mr. and Mrs. William D. Vaughn, of Dansey avenue, who was returning to Camp after a weekend with his family and parents in Carlisle. Would you know all the Nicholas County boys in the army will also be in the Service if you should meet them away from home?

Water! Clear, Cool Water! You have looked at the trees around your place lately? In spite of the dry weather we have had, most of us have some real pretty

containers, so there is no possibility of misuse—even by growers.

Unusable materials should not be dumped where they grow. If you have a good idea as to how to bury these materials. The life of a child, pet, or valuable farm animal is well worth the extra time and trouble involved in properly storing and disposing of these poisonous materials.

Store Pesticides Safely Now that the time for use of most pesticides and insecticides is past, it is a good idea to store unused materials for use next season. But, be sure they are out of reach of children. It is a good idea to lock them up, in their original, labeled

Farm & Home

Tobacco Festival

The seventh annual tobacco festival plans are about complete for the program at the Carlisle Army on November 8. Prizes totaling over \$250 will be provided by local organizations and neighboring tobacco warehouses. All Nicholas County tobacco growers are eligible to show. Samples of flyings, lugs, bright leaf, red leaf and tips can be shown. They must contain three hands of each grade and the hands must have twelve or more leaves. From Massie, University of Kentucky Tobacco Specialist, and a federal grader will do the judging. They will also appear on the educational program during the afternoon. The high school Glee Club will also be in the program. Exhibits can be brought in between 7:30 and 1:00 a.m.

Kentucky IFYE To Israel Describes Jewish Life

Lexington, Ky., —Yom Kippur, the most solemn day of the Jewish year, was described in a recent letter from Alexander Fisher, Robertson County, who is spending six months in Israel as an International Farm Youth Exchange (IFYE) delegate.

One of five Kentucky young people who are living with their families in other lands this year at IFYE, under the 1963 IFYE program, 126 U. S. delegates have exchanged for 143 young people from 47 other countries. As

IFYE, the young people learn about life in their host countries by actually taking part in the everyday activities of their hosts. The program is sponsored by the National 4-H Club Foundation on behalf of the Cooperative Extension Service and international understanding as

well as to promote peace and friendship between the nations of the world. Today is Yom Kippur—the day of Attonement and a day of fasting and prayer. As written, my host family and I went to synagogue the new day begins at sunset and the traditional Kol Nidrei prayer in the synagogue, welcomed Yom Kippur, the day

when we ask forgiveness of heaven and promise to do better in the new year. Last evening, my host family and I went to synagogue the new day begins at sunset and the traditional Kol Nidrei prayer in the synagogue, welcomed Yom Kippur, the day

when we ask forgiveness of heaven and promise to do better in the new year. Last evening, my host family and I went to synagogue the new day begins at sunset and the traditional Kol Nidrei prayer in the synagogue, welcomed Yom Kippur, the day

of the lives lost in the War of Independence. My home and host family now are much in contrast to my host family. I have never before had a home as nice and roomy as this. The house has nine rooms and a bath. The only one of its kind in the area—protection from the hot sun and the hot sun. The house is a beautiful one, and English, a television, and service twice a week, the Mediterranean Sea just outside the door, and more strawberries than I can eat. I have never before had a home as nice and roomy as this. The house has nine rooms and a bath. The only one of its kind in the area—protection from the hot sun and the hot sun. The house is a beautiful one, and English, a television, and service twice a week, the Mediterranean Sea just outside the door, and more strawberries than I can eat.
