

# School Begins Once More

September brings a profound change in the lives of millions of Americans. These are the members of what might be termed the "stronger" side of the September 15th machine when school begins once more. For three long months the school doors have been closed, and September they open again, and it is back to the books and the blackboards. The September 15th machine is on the seven ages of man, giving a typical view of the whining school-boy, the creeping like small unwillingly to school, the typical girl it supposed to hate school as the devil hates water.

# Readers Comments

If you were a teacher here would you condone or extend existing policies at Nicholas County? Or would you value your job more than the future of our young citizens? Fair Play Advocate? Is there room for both in our schools? Mrs. Nellie West, who moved to Nicholas County last year, is a model citizen and maintaining a balance between the powers that be at this school decided on the verdict that is who would have first place honors one week before school was out last year. A person with a perfect A standing and 134 points would receive first place honors. Well it didn't turn out that way. A person with 120 points and a 24 standing came in first. In most cases doesn't the principal of the school announce the honors to the lucky hard working student? Not here. Last year, one of the teachers did the honors, wonder why? You can't take away what a student has learned by reading. Writing and Arithmetic but isn't fair play and justice equally important in life here on earth? When County Board of Education members know a situation exists why don't they remedy it? It is their responsibility. Why are some members so over ruled by so called superior intelligence that they say yes to any problem when they would only think for a moment for themselves, the answer by vote would be no? Do we need higher qualifications for our school board members? Our school board is supposed to have a policy for determining home valuations. Could it be that since our board does not have a secretary present at board meeting that the policy they decided upon never reached the minutes book in 1954? If they did why was the policy never put into effect? If they did why in 1963 the board members admit that they are not aware of the changes. Wonder why? Should be just forgotten how much they need to him because the "defect" will win by being "chosen". Should I tell him the world is more just than our school system?

News of the Week. Mrs. Nellie West, who moved to Nicholas County last year, is a model citizen and maintaining a balance between the powers that be at this school decided on the verdict that is who would have first place honors one week before school was out last year. A person with a perfect A standing and 134 points would receive first place honors. Well it didn't turn out that way. A person with 120 points and a 24 standing came in first. In most cases doesn't the principal of the school announce the honors to the lucky hard working student? Not here. Last year, one of the teachers did the honors, wonder why? You can't take away what a student has learned by reading. Writing and Arithmetic but isn't fair play and justice equally important in life here on earth? When County Board of Education members know a situation exists why don't they remedy it? It is their responsibility. Why are some members so over ruled by so called superior intelligence that they say yes to any problem when they would only think for a moment for themselves, the answer by vote would be no? Do we need higher qualifications for our school board members? Our school board is supposed to have a policy for determining home valuations. Could it be that since our board does not have a secretary present at board meeting that the policy they decided upon never reached the minutes book in 1954? If they did why was the policy never put into effect? If they did why in 1963 the board members admit that they are not aware of the changes. Wonder why? Should be just forgotten how much they need to him because the "defect" will win by being "chosen". Should I tell him the world is more just than our school system?

# Twenty and Forty-five Years Ago

Thursday, Sept. 8, 1943. I introduced unconditionally to the Allies. I was in the mood, you get better skin conditions, religious services each evening in a tent on the county lawn. Stripped of its, O. C. Stevens, who has been pastor of the Carlisle Methodist church for the past two years, left yesterday for his home at Middletown, Ky., leaving behind a resignation to that church by the conference held last week in Lexington.

Mrs. M. and Mrs. Frank Burgess will move to K. F. O. S. Middletown, Ky., on Monday, Sept. 14. Mrs. Burgess is the wife of Mr. H. I. Burgess of Carlisle, Ky. Mrs. Margaret Holton of Saloma, Florida, is the guest of Mrs. William Collins.

Mrs. Gladys Bowen re-enters Cincinnati College of Music, a Communion petition-giver merchants to give delivery a day.

Mrs. Miranda Henry accepts position with Curry, Tunis & Newell in Lexington.

Mrs. Lucile Berry goes to Hartford, Ky., where she is head teacher of the school. Mrs. Lucile Berry leaves for Williamson where she will be Assistant Principle in the Williamson School.

one was 14 1/2 inches in girth and weighed one and one-half pounds. I did so much weight and measure. And that's not all either. There were also three of these new-fangled white cucumbers. That's right, WHITE! Ever seen any? Well, I had. Very outside with sort of pale green strands. Very delicious indeed.

Enters T. Hospital. Floyd Stanfield, of the T. B. Hospital at Paris for treatment about three weeks ago. Members of his family who have recently visited him, report that he has gained two pounds, is getting along fine and is well satisfied.

For Your O.-K. The following article has reached Yappin' and is passing it on to you: Two mosquitoes were visiting relatives here, they were guests of the other. "Just fancy, they'll come in here and lie down placidly while someone takes a PINT of their blood, but they'll yell blue murder if we just take a couple of nips!"

What Price Yappin'? If Jesse T. Bach has answered all questions as precisely as he did Yappin' about the white groundhog he captured recently, I dare say that poor fellow is worn to a frazzle! A few even thought Yappin' ought to know, or find out, a thing or two about a picture of the man holding the animal appeared on page 8 of last week's Mercury.

Freaks of Nature. A few days ago, my neighbor sent over six dead snakes. He said they were like the ones I never saw before. The four yellow ones weighed three and three-fourths pounds. The red one weighed 15 1/2 inches in circumference and weighed two pounds with his mother. The "small" red

signs and rubber compounds produce 16% better traction... less noise and road vibration every mile! And ATLAS gives you a choice of two quick-action gearboxes: adjustment prorated on the tread remaining, or on number of months in use. Your Standard station today. Find out how little safety costs!

# When safety counts... count on ATLAS

Every mile you drive, new ATLAS Plytron Tires work to keep you safe. With 25% more working rubber on the road, you get better skid-resistance, better for steering, quicker stops. New tread de-

work output is less, mental reactions are slower, and muscular fatigue increases. It is claimed that every creature has, or has had, a mate, so now that the Bach family has met white groundhogs, father and son are spending their spare time in that field back of their home looking for what just might be found—a white groundhog's mate!

FARM & HOME  
By Estil J. Noffsinger, County Agent, Morgan Station, Assistant County Agent

Breakfast is a Personal Responsibility. Better breakfast habits, especially by the teenage weight-watcher, are being encouraged. Ruth M. Leverton, Ph.D., Agricultural Research Service, U. S. Dept. of Agric., has said, "We must develop in our students the concept of a state name which is well being conditioned by the choice and amount of food eaten, a concept of the cause-and-effect relationship between food intake and the level of well-being. During the semi-annual conference conducted in Breakfast Studies, it was demonstrated that when breakfast is skipped, your

and health plans: Orange Juice, Hot Farina with Raisins, Bread, Butter, Non-fat Milk, Coffee, and Tea.

Follow These Easy Steps to Launder those Dark Cottons  
Trim dark cottons as a smart fashion choice for town and city. Although many homemakers consider dark washables difficult to finish properly, by following a few simple tricks dark cotton can be washed, starched and ironed with perfect results.

Researches for one of the leading manufacturers of starch suggest these dark cotton care tips:

Always launder dark cottons separately. Even if they are light, do not blend or transfer dye to lighter items. A little pre-wash will help to lighten colors.

Most between-seasons cottons require only a light wash. Turn to page 5.
