Mr. Warren Fisher
Carlisle Mercury
Dear Mr. Fisher:
May I take this opportunity to assure the citizens of Carlisle and Mrs. Walter Shephard that since the opening of the Nicholas County Hospital, the hospital has never "dumped raw sewage into the 'back streets'." When the hospital was put into operation in 1960 sewage was disposed of by means of lateral tiles and septic tanks.

Due to the condition of the soil in Nicholas County it did not continue to be adequate. In June 1963, at the cost of twenty thousand dollars, the Nicholas County Fiscal Court authorized the construction of a sewage treatment plant for the hospital. Part of the cost was paid by the Federal and State government. This sewage plant is located on the west side of the hospital and is regulated by the State Health Department. Although smaller in size it is identical to the one now under construction for the city and is adequate to take care of air needs and any expansion we may do in the future.

The wheat program in the Agricultural Act of 1964 contains several provisions that Nicholas county farmers may want to consider.

(1) Participating farmers can qualify for price supplements with a cash value and payments for diverting to an approved conservation use.

(2) A wheat farmer who wants to take part in the new program must declare his intention and sign an agreement at the county agent's office. The agreement period extends through May 15.

(3) A farmer who signs up and carries out the provisions becomes eligible for price support loans on all wheat produced. He also can receive mar-

Amazing how little it costs

to put a roof over your head

Amazing! Most people are downright embarrassed to check out a new compact Dodge Dart. But the price isn't the only reason why you should consider it. It's more amazing when you consider all that makes a Dart a Dart. For instance, size it up with heavy, head, blowers of super. You'll find a quality car maker builds a compact bigger and better than most cars of its kind with such good looks.

Books Training

Charles E. Jewell, 20, son of Mr. and Mrs. Robert Jewell of Route 2, Carlisle, has begun basic training at the Naval Training Center, Great Lakes, Ill.

The nine-week training includes naval orientation, history and organization, seamanship, ordnance and gunnery, military drill, first aid and survival.

During the training recruits receive tests and interviews which determine their future assignments in the Navy. Upon completing the program they are assigned to service schools for technical training or to ships and stations for duty.

Naval training provides the power in seapower by supplying qualified personnel to man the ships, planes, and shore stations of today's Navy.
