Mr. Farmer SON OF DAUGHTER GOING TO COLLEGE? On every boy's father we are constantly being reminded of the need for better trained people in all fields of endeavor. Due to this increased need for better education for our farm youth, the Production Credit Associations have exercised leadership in providing educational credit for the dependents of the members it serves. However, we feel that only students who have the ability and the drive should be encouraged to take advantage of this new P.C.A. service. Roughly, the loans work like this: twenty-five percent of the money advanced each year, plus interest on the entire balance to be repaid by the student advanced. The remaining seventy-five percent of the total money advanced to be paid after graduation. A renewal loan is set up and repayment is tailored to fit the student's income at a rate commensurate with the graduate's ability to repay. For example, take a four-year college loan of \$6,000.00. A four-year loan would be made and \$1,500.00 advanced annually. Of this amount \$375.00 plus interest would be repaid annually. At maturity a balance of \$1,500.00 remains. A renewal would then be set up to liquidate the balance. Carlisle Office EASTERN KY. P.C.A. Joe Crouch, Office Mgr.
