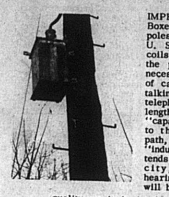
CHRISTMAS IN CARLISLE — Last Saturday at Blue Grass Industries a dream of many years came true for Mrs. Carrie Shumate as the statues took their places on the front lawn in the life size nativity scene. It is the only complete life size nativity scene on display in this area. In this way we want to share the spirit of Christmas with our entire community and all those who may pass this way during the holiday season. It is the hope of all at Blue Grass Industries that this will stand as a reminder to old and young alike of the first Christmas gift almost 2,000 years ago. As you drive by and observe this humble scene, pause for a few moments and praise God for the Gift of His Son. — Mercury Photo.

What's That Box Do?



IMPROVES SERVICE — Boxes on the telephone poles at intervals along U. S. 68, contain load coils, which according to the phone company are necessary on long lengths of cable to improve the talking quality of the telephone circuits. Long lengths of cable build up "capacity" which tends to throttle the talking path, load coils have an "inductive" effect which tends to cancel the capacity, so talking and hearing in the rural areas will be of the same fine quality as it is in the cities.
