Think Before You Bite
Much easier to pop that morsel of beef into your mouth and just chew. But for once — stop and think what you're doing... what you have.

The best of beef. Probably out of an electric freezer and broiled in an electric oven. Purchased in a supermarket and brought home in a nice cart to be served to a healthy family in a comfortable home.

It's all part of what we call the American Way of Life. Not everyone has it. Nor will they. For it wasn't brought about by government edict or by accident — but by free men in a free society working for themselves.

Now go ahead. Take that bite. Like most of us — you have it because you worked for it.
