Twenty and Forty-five Years Ago

Thursday, May 25, 1944

Members of the Carlisle City School Faculty entertained with a lovely banquet Wednesday at the Feback Hotel in honor of the retiring members. Prof. Everett East, Fannie, Mrs. Tille Hamilton Feback, Mrs. Roger Womack, Mrs. William Gilroy, and Mrs. Constance master, who were not candidates for re-election to the board, paid tribute to their retiring members, especially Mr. Fannie, after his 18 years of service, and Mrs. Feback, after 30 years teaching.

Mr. Fannie responded in a most clever manner, and instead of making this a sad affair, quite a bit of wit and humor was interspersed. Miss Taber, in a charming manner presented Mr. Fannie with a brief case, a gift from the faculty in appreciation of his services, and Miss Mary Frances Fisher presented Mrs. Feback with a similar one. Also from the faculty.

It has been announced that Roy N. Walters, instructor in the Foundation School at Berea College has been appointed principal of the Foundation School.

Mr. Walters is the son-in-law of Mrs. W. C. Crouch.

Died: James Henry Godley, 14, Friday at the home of his parents, Miss Almyra Nester, St. Monday, at the home of his sister, Mrs. John Boyce, William Wallace House, 68, Tuesday, at his home on the East Union road.

Born: To Mr. and Mrs. Herbert McElfresh, a daughter, - To Mr. and Mrs. Milton Galbraith son, 45 Years Ago

Feature Mowing - Season is Here

The highest dollar returns for dollar costs in pastures is mowing. Mow pastures regularly. This practice is as important as any other of your major farm chores.

The first mowing of the year is the most important provided it is early in the season. Pastures should be mowed before the cool season grasses (Kentucky 31 fescue, orchardgrass, timothy, Kentucky bluegrass, redtop, and bromus) go to seed. This early mowing prevents the grasses from going dormant, thus giving you a longer grazing season.

Also this mowing helps the legumes get a better start by reducing competition and shading by the maturing grass plants. Too, this mowing helps you keep a better ground cover for young green grass and legume leaves, thus reducing the effect of drought.

Additional mowings should be done throughout the grazing season. These mowings are usually most effective following grazing, especially when the livestock continues to turn down on large patches of grasses and legumes due to coarseness and manure deposit.

WHAT IS YOUR CHILD'S EDUCATION WORTH?

A Some Facts You Should Know About The Educational Building Program For Nicholas County Schools And School Levy.

1. The Board has voted to provide adequate facilities for all children in Nicholas County including both elementary and high school on one central site as recommended by the survey of the Department of Education and published in the Carlisle Mercury on November 21, 1963.
2. The Board has voted to employ an architect to do the necessary planning for the entire location of all new buildings made possible by the levy.
3. The Board will not levy any tax higher than necessary to provide the program. State law 160-477 provides for a levy of 5¢-50¢. It is a false assumption to believe that the levy will be 50¢. The levy will be determined by the bids received on the construction costs.
4. The Board has agreed that the buildings should be comparable with the good taste of the citizens of Nicholas County, but that they will not be wasted for unsuitable ornamentations that would increase the cost of construction.

B Two Basic Needs To Be Considered By You.

1. In the past few weeks the Carlisle Mercury very graciously has presented the needs for additional facilities as described by classroom teachers and other employees of the Nicholas County School System.
2. On April 28, 1964, the Department of Safety inspected all existing school buildings and definitely stated that major deficiencies in the existing buildings were a serious threat to the safety of the students that must of necessity attend the schools. The list was four pages long and included deficiencies which have been estimated by a reliable architect to cost at least \$200,000.00 to correct. (See page 4). We would still have old buildings that do not meet modern educational needs.

C These Organizations Have Discussed And Made The Following Statements Which Urge Individuals To Give Serious Consideration To The School Building Program To Be Voted Upon May 26th.

CARLISLE ALUMNI ASSOCIATION
We, the officers of the Carlisle Alumni Association feel that the proposal of the Nicholas County School Board to submit to the qualified voter of the district, the question as to whether a special school building tax rate of not less than five cents nor more than fifty cents shall be levied on each one hundred dollars of property, is worthy of the consideration of each member of the Association.
Officers of the Carlisle Alumni Association

NICHOLAS COUNTY ALUMNI ASSOCIATION
At the executive council meeting of the Nicholas County Alumni Association on April 27, 1964, the members agreed to go on record as supporting the proposed tax for the school building program for Nicholas County.
Officers of Nicholas County Alumni

JOINT MEETING OF ALL P. T. A. OFFICERS
At a joint meeting of the officers of all the P. T. A. organizations in Nicholas County, which include those who served during the present year and those elected for next year, the group voted to support the Nicholas County School Building program and to further present the matter to the P. T. A. in each school for its consideration.

CARLISLE YOUNGER WOMAN'S CLUB
The executive committee of the Younger Woman's Club recommended that the club very seriously consider the proposed Special School Building tax that will appear on the May ballot.

CARLISLE ELEMENTARY P. T. A.
The Executive Committee of the Carlisle P. T. A. recommends to give serious consideration to the Tax Referendum appearing on May 26 Ballot.

HIGH SCHOOL P. T. A.
The Executive Committee of the High School P. T. A. recommends the serious consideration of the question on the ballot of the May 26th election concerning an additional school tax for the purpose of constructing new buildings to house all school children in facilities that will lead themselves for better education. And that they will also eliminate costly repair of unsuitable buildings and shuttle buses.

CARLISLE COMMUNITY WOMAN'S CLUB
The executive committee recommended that the club go on record as supporting the Nicholas County Board of Education's effort to show a need for a school building program.

How to be a hit with the misses

The answer, obviously enough, is to become a 1964 Dart owner. For this year's latest beauty is welcome—and then some.

Take 1964 Dart styling, for instance. Random, daring, suave, and fun for studied taste. Here's a car anyone could love to look alone, inside, behind the wheel, or away but as soft and supple as they appear. And how many other concepts can you name that offer a choice of standard or bucket seats, carpeting, and engines ranging from an Economy Run 1600 cc. to a standard 271 cc. V-6.

So, if you want to be a hit with the misses, see your Dodge Dealer. But don't be misled by the many other fakes with the same idea.
