April 28, 1964

Dear Mr. Wesley:

We have recently received a report from our Inspector, Mr. Faulconer, and one which was compiled following the re-inspection of the school under your supervision.

1. CARLELE ELEMENTARY SCHOOL  
Main Classroom Building

2. Separate kitchen from remainder of building with ceiling fire resistant rating. Doors to be equipped with approved fire resistant rating. Decease from vent pipe leading from the range hood to chimney.

3. Discard use of long extension cords and provide electrical outlets where needed.

4. Provide an additional means of egress for a cafeteria.

5. Provide ceiling with minimum one-hour fire resistant rating throughout basement area. (Existing ceiling is definite fire resistant.)

6. Close all heat and ventilation shafts that are not in use with non-combustible material.

7. Remove the temporary wood partition in basement area and replace with one-hour construction after the classroom area has been rearranged in such a way as to give the children in each classroom two separate means of egress from basement area.

8. Move at once the obstruction from the exit door leading from the home economics room in the basement to the outside. Keep door unlocked at all times building is occupied.

9. Give basement area, including storage space, a general cleaning.

10. Install an approved type fire alarm system throughout building.

11. Branch electric circuits overhead. Have competent electrician check wiring for proper wire size, bring wiring in building into compliance with the National Electrical Code.

12. Replace the long runs of copper tubing that lead from natural gas piping in basement through the floor and into classrooms and connect the gas outlets at the work table.

13. Provide pilot lights for open in home economics room.

14. Make necessary repairs to handpumps and hose systems throughout entire building.

15. Make necessary repairs to handpumps and hose systems throughout entire building.

16. Separate auditorium from remainder of building with approved one-hour fire doors, equipped with approved self-closing doors.

17. Provide illuminated exit signs for the auditorium.

18. Replace flameproof curtains on stage in auditorium or replace with non-combustible material.

19. Make-combustible seats throughout surrounding ceiling in fire resistant rating.

20. Separate the attic space into areas not exceeding 3,000 square feet and provide one-hour doors leading into attic from second floor.

Industrial Arts Building

1. Cover the interior of the building with 5/8" gypsum board.

2. Replace the combustible insulation behind kitchen, furnace room, seal off the remaining gravel doors and do not use.

3. Branch the fire alarm system to cover this building to present the fire alarm system is only covering the main building.

4. Repair the fire alarm system to cover this building.

5. Repair the top of chimney that serves the boiler.

General Recommendation

1. Remove the rotten tree that is presently endangering the high voltage wires that cross the school property.
