"Must have had a 50-year-old Rolls..."  
"Come on now..."  
"Amazing..."

**To the 5 out of 10 people who didn't believe this ad... a sporting proposition**

Take a no-obligation test drive in a 1965 Ford. Maybe you just couldn't believe the ad (reprinted above) which appeared in this paper a few weeks ago. After all, many consider Rolls-Royce to be one of the world's finest cars. But Ford gives ride quieter. The world's leading acoustical experts (Bolt, Beranek and Newman, Inc.) made the tests. The U.S. Auto Club certified the results. This year's Ford has the strongest body ever... a revolutionary new frame that "tunes out" vibrations... new ultraquiet coil-spring suspensions... all contributing to the new hushed ride. But the ride is only part of what's new.

■ New swept-back instrument panel adds five inches extra knee room. ■ Transmission tunnel is lower than in competing cars for extra foot room. ■ Trunk has more usable space than ever—holds four 2-suiters standing upright. ■ New ultra-luxurious LTD series—unmatched by any other car in Ford's class. ■ Silent-Flo ventilation (standard on 4-door hardtop) removes stale air, provides fresh air even with all windows closed. ■ Exclusive new two-edge key—works with either side up. ■ Hot, hot hubbed, 289-cu. in. V-8 is standard equipment in XL and LTD models.
