

OUR TRIP TO THE FIRE DEPARTMENT
By Linda Cronan

We went to the fire department, Friday afternoon, Oct. 9. It was really just for 4-her's but everyone went because a Christian is also a good fire prevention week. When we got there Mr. Fay the fire chief was waiting for us. We saw the county fire truck and the city fire truck. We asked Mr. Fay many questions. We asked him how much the new county fire truck cost when it was bought. Mr. Fay said it cost about \$11,000. Mr. Fay told us if they got a new city fire truck it would probably cost about \$25,000.

Brucecelosis Testing Growing

There were three different kinds of fire extinguishers on the fire truck. One was used for grass fires, and others were used for bigger fires. Soda and acid were used in one of the fire extinguishers. Mr. Fay said most of the fires this year were grass fires because of such dry weather. In the fire department we saw the firemen coats, hats, and boots. After we asked Mr. Fay a few more questions, we came back to school. Then the 4-her's had their meeting and played a game.

What the Greeks Called Them
By R. J. Hastings

The U. S. Census Bureau estimates there will be almost 114 million persons of voting age when Americans go to the polls next November. Nearly 2 million of these are Kentuckians. However, past records show that less than 2 out of 3 persons of voting age bother to go to the polls. In this election is typical, 72 million will vote and 42 million will not. There are various reasons why every third person stays home on election day. Some are aliens and can't vote. Lincoln numbers fail to meet their state's registration or residence requirements. We must also believe that a sizeable number are simply unconcerned. "What is one vote out of 72 million?" is the lame defense of many. Voting is not only a civic but also a Christian duty and opportunity. Although voting procedures as we know them were unknown in Jesus
