At the fruit counter, look for good buys on California plums, Thompson Seedless grapes, hard-shell cantaloupes, fresh oranges, and grapefruit. Large supplies of frozen concentrate and orange juice also are available.

The national peach crop is larger than last year, although Kentucky crops are smaller; Indiana and Michigan will supply Kentucky markets with peaches during August. Prices on good quality storage apples have gone quite a bit higher, although new-crop apples are available at fairly good prices.

Expect to see temporarily lower prices on all potatoes during the first few weeks of August because of harvest from

nearby areas, Mrs. Jasper notes. Other vegetables now economical in high schools are beans, cabbage, celery, sweet corn, peppers, cucumbers, squash, tomatoes, salad greens, and radishes.
