Every fifth cow is free

It's a fact... milk production increases 10 to 22 percent when fresh water is always available for your herd. It's like increasing your herd without adding to your feed and other costs.

Best of all, it costs so little to bring running water to your herd. Just a few dollars for materials and you can do most of the work yourself. Chances are you can add the line to your present water system.

ELECTRIC WATER SYSTEM

REG MEMBERS RECEIVE FREE ADDITIONAL WIRING FOR WATER PUMPS AND HEATERS.
