T-Shirt Production Up For 1966

A new line of T-Shirts is now being set-up to produce 250 dozen a day during the coming year. When this line is complete it will employ 22 operators and 2 inspectors. It will also be necessary to add two additional people in the Knit Packaging Department. This new line is under the supervision of Elizabeth Mastin. Six operators are already in training on this line. Instructors for this project are Lida Ruth Robinson and Edity Henry. In 1962, the T-Shirt product began production with one line under the supervision of Sarah Fryman. This has steadily increased to five lines which now employs 120 people. During 1965, LaJuanne (Jodie) Lawson has been assigned as supervisor of two lines. With the additional line in full production, we will be able to meet the anticipated weekly schedule of 6,700 dozen during 1966.

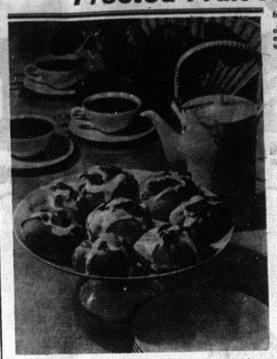
Frosted Fruit Rolls



Frosted Fruit Rolls are an Americanized version of the Czechoslovakian "Kolachky." Fruit preserves nestle in the hollows of these yeast-raised sweet rolls; snowy confectioners' sugar frosting adds a festive touch.

American Version of Czech Favorite

Each Czechoslovakian family, whether at home or in the United States, has its own favorite recipe for "Kolachky." These famous filled buns vary with each household—some are made from a sweet yeast dough, others are unsweetened. Some are filled with fruits, others with poppy seeds, nuts or cheese.

Frosted Fruit Rolls are an Americanized version of "Kolachky." The fruit filling nestles in a finger-print hollow in each bun. Snowy confectioners' sugar frosting drizzled over the colorful fruit preserves adds a festive touch.

Frosted Fruit Rolls are a good offering for parties or other special occasions. For a varied selection, use different fruit preserves.

FROSTED FRUIT ROLLS
(Makes 2 dozen rolls)

½ cup milk
½ cup sugar
1 teaspoon salt
½ cup (1 stick) Margarine
½ cup warm water (105°-115° F.)
2 packages or cakes Yeast, active dry or compressed
2 eggs, beaten
1 teaspoon grated lemon peel
4½ cups unsifted flour (about)
1½ cups orange marmalade or other fruit preserves
Confectioners' sugar frosting

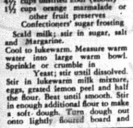
Scald milk; stir in sugar, salt and Margarine. Cool to lukewarm. Measure warm water into large warm bowl. Sprinkle or crumble in Yeast; stir until dissolved. Stir in lukewarm milk mixture, eggs, grated lemon peel and half the flour. Beat until smooth. Stir in enough additional flour to make a soft dough. Turn dough out onto lightly floured board and knead until smooth and elastic, about 10 minutes. Place in greased bowl, turning to grease top. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1½ hours.

Punch dough down. Turn out onto lightly floured board and divide in half. Form each half into a roll 12 inches long; cut into 12 equal pieces and form into smooth balls. Place on greased baking sheets. Cover; let rise in warm place, free from draft, until doubled in bulk, about 1½ hours.

With fingertip make a deep depression in each ball to within ½ inch of edge. Place 1 tablespoon marmalade or preserves in each depression.

Bake immediately in moderate oven (375° F.) about 25 minutes, or until done.

Frost with confectioners' sugar frosting before serving.



Blue Grass Salutes

Toy, Carolyn Vice.

WOVEN & UNDERSHIRT DEPARTMENT; Margaret Cassity, Olive Marie Thomas.

WHAT'S NEW?

Donald Haney, Time Study and Method Engineer, traveled last month to Greensboro, North Carolina to purchase a glue application sealing machine. This sealer, manufactured by the Container Corporation of America, is the newest piece of production equipment at Blue Grass Industries. The machine does the work of three employees used on the old sealing operation. Beforehand, the glue was applied, envelope flap folded, fed into pressing machine and laid up on the boxing table by hand. Whereas, now one operater feeds the machine and it applies the glue, folds the flap, seals envelope and places it on packaging table by means of a conveyor. It will complete the sealing cycle at the rate of one package per second. Our latest mechanical helper is handling the production of 4,900 dozen per week without a care.

3 to 1 Edge For Bond Issue

Lexington, Ky. -- The $176 million bond issue, approved by Kentucky voters, polled a 3 to 1 edge, according to unofficial returns compiled by the Kentucky Better Roads Council.

The "Yes" vote was 418,306 against the "No" vote of 136,984. The majority in favor of the issue was 281,322.

Council figures show that the bond issue was rejected in seven counties, Hickman, Union, McCreary, Casey, Nicholas, Clinton and Grant.

Grant County was lost by a margin of seven votes, unofficial returns show.

Breathitt gave the bond issue the widest percentage edge with 95 per cent of the voters favoring the issue, Morgan County was 92 per cent in support and Perry County gave it 89 per cent. Jefferson County, where a local bond issue also was on the ballot, voted 88 per cent in favor.

The Better Roads Council, which spearheaded the drive for passage, reported that 733 newspapers and organizations adopted resolutions in support of the issue.

Future plans of the Council, a permanent organization, are to be made at a December meeting of the membership when officers will also be elected. Harry J. Huether, Lexington, is president, and Gilbert W. Kingsbury, Ft. Mitchell, is executive director.

Mt. Zion Homemakers By Mrs. Farrell Ring

The Mt. Zion Homemakers Club met Nov. 16 with Mrs. Glenn Hardin. Five members and Mrs. Margie Wilson were present. Devotional was given by Mrs. Emmett Smoot also the treasure report. Landscape notes were given by Mrs. Glenn Hardin.

Several Christmas ideas were discussed and plans were made to give a gift at Christmas to a sick person in our community. Mrs. Paul Vinson gave the lesson and discussed a work day for antiquing flowers.

December meeting will be with Mrs. Harold Mitchell. Delicious refreshments were served by Mrs. Glenn Hardin.

"HERE'S HOW DODGE'S 5-YEAR, 50,000-MILE ENGINE AND DRIVE TRAIN WARRANTY PROTECTS YOU: Chrysler Corporation confidently warrants all of the following vital parts of its 1966 cars for 5 years or 50,000 miles, whichever comes first: engine block, head and internal parts, intake manifold, or repaired at a Chrysler Motors Corporation Authorized Dealer and proved to his customer within sixty days after such repair. This warranty is void if the vehicle is operated as a taxicab, police car or used for racing. (Exception: normal clutch); torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings. REGULARLY SCHEDULED MAINTENANCE: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles, whichever comes first; change oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of the required service to a Dodge or other every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of the required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.
