

Your Money Goes Farther

when it stays at home

Round and round our dollars go... building local trade volume with every turnover... when we spend them with our own home stores and service establishments.

And every added dollar of trade volume in the community means a little better jobs for us... increased business profits, better property values... a little better support for our churches, schools and other civic facilities... better service to meet our daily and emergency needs.

Just a single dollar... spent at home instead of being used to "pick up" some article in the city... may account for \$5 or \$6 or more of additional home trade volume as it goes 'round and 'round among us.

Each such dollar put on the home-trade merry-go-round is an investment in enlightened selfishness... as it comes around and back into our own hands again from time to time.

It Pays to Buy Where You Live

Education Opportunities Offered

Educational opportunities have now come to many children between the ages of 18 and 22 by way of the new Social Security law. This new legislation enables children of retired or disabled beneficiaries (or deceased workers) to receive monthly payments beyond age 18 and up to age 22, if they are full-time students. This social security payment will provide in many cases a substantial part of the cost of education after high school. With the increased emphasis on higher education this should give more incentive to those in this group to continue their education after high school.

These student benefits may be payable for all months of this year. The payments stop when the student reaches age 22, unless, in some cases where he is accepted or is no longer a full-time student. Payments are made during the summer vacation months or other breaks in the school year if it is less than 4 months and the student plans to continue his schooling. Should the student work and earn more than \$1,200 this year, he may lose some payments since the social security retirement test applies to him as it does to most beneficiaries. For more information on this and other changes made in the Social Security Law, contact the Social Security District Office at 950 Wachsester
