Do your Christmas hinting early

She hinted for her electric clothes dryer last Christmas . . . and has "waltzed through washday" ever since!

Who knows . . . that new electric clothes dryer may be just a hint away from you, too. After all, an electric clothes dryer is a woman's most wanted appliance. Lets her dry the family's laundry anytime; rain or shine; summer or winter.

An electric clothes dryer is safe because it's flameless. Costs only pennies to operate, thanks to low-cost, rural electric power. Better do your Christmas hinting now so you "waltz through washday" soon!

MODERN ELECTRIC CLOTHES DRYER

"Electric heating is the only luxury we can think of that we don't pay more to get."

Say Mr. and Mrs. R. S. Wood of Shelby County

"We always thought electric heating was a luxury," says Mrs. Wood. "But when we built our new home we decided to look into it, and are we glad!" "In fact," adds Mr. Wood, "our electric heating bill for last year wasn't any higher than our fuel bill used to be. And there are so many extra benefits. Everything stays so clean, and it's so easy to operate and so safe. The heat is even — even the floors stay nice and warm. And the cost is lots less than most people think."

Why not join the hundreds of new-home families served by KU who are switching to electric heating? Flameless electric heating doesn't cause dust. No maintenance with this system either because there are no moving parts to wear out or adjust. Individual room control in every room in your home, completely eliminating over-and-under heating!

If you're building or buying a new home, know the joy of total electric living by installing electric heat. It's the truly modern way to provide luxurious, year 'round climate control.
