Got lots of reasons to want the best heating system?

You can satisfy them all with modern electric heating

Electric heating is the most satisfying system for everyone. Your wife will love its cleanliness—there's no dust from flameless electric heating. You'll love the lack of maintenance—no moving parts to wear out or adjust, and nothing to order or store. No noisy furnace or ducts, either.

Everyone in the family will love the individual room controls that give them the exact comfort-level they want in any room. Above all, electric heat is uniform—no cold rooms too far from the furnace, or hot ones too close to it.

So if you're planning to build or buy a new home, be sure it has electric heating—a basic part of the joy of a modern electric living. Let our heating specialists help you get all the facts. They'll estimate your heating costs before you decide.
