How to freeze the rising cost of living

An electric freezer is like having your own super market right in your home! You can buy seasonal specials when prices are low; store them in your freezer and serve later when the same food may cost twice as much. It's easy to freeze fruits and vegetables, too. No mess. And you always keep that wonderful garden-fresh flavor. It's mighty handy when unexpected guests arrive because you'll always have extra food available.

Yet an electric freezer costs only pennies a day to operate, thanks to low-cost rural electric power.

ELECTRIC FREEZER

Take advantage of low summer prices on many foods and meats. Store them in your electric freezer or refrigerator freezer and serve later. An other good way you live better with rural electric power!
