In The Service

Army Sergeant First Class Adrian T. Scott, son of Mr. and Mrs. Worth W. Scott, Carlisle, Ky., received The Good Conduct Medal March 9, while assigned to the 109th Transportation Company in Germany.

Sergeant Scott received the award for exemplary conduct, efficiency and fidelity as a soldier in active military service. Scott, a platoon sergeant in the company, entered the Army July 1944.

The sergeant was last stationed at Fort Hayes, Ohio.

KINDERGARTEN: As you probably know we had a Christmas Party and play at which times our parents came to visit us. But our most important visitor was Santa Clause.

Mrs. Alma Davis brought her movie projector and showed us films of the Animal Zoo. One day Debbie Dana brought a live white pigeon for us to see and pet. Miss Pottier made us a new game to help us learn our numbers better. We call it our fishing pond. There are large orange fish made from construction paper with numbers on the back of them in a plastic pool. We have to see who can catch the fish with the highest number on it. It's really lots of fun!

We had a Valentine Party in February and Renee's mother sent us beautifully decorated cup cakes. We had a big Valentine box and put our friends.

We made valentines to carry all our valentines home. The thing we enjoyed doing most of all was making cup-cakes. The girls mixed up the batter and the boys greased the pans. Miss Gontie had a little play electric stove in which we baked some of our cakes and then she baked the other cakes in her big stove upstairs. We were had fun making and eating our own cup cakes. We didn't know that we were such good cooks.

Next month we are going to take some trips. We will tell you about them later and have some pictures for you to see.

Telephone Talk

by Your Telephone Manager

CHARLES A. HARRIS

ACCORDING TO LATEST FIGURES, THE BELL SYSTEM IS IN A RACE WITH THE STORK, AND THE PHONE COMPANY'S WINNING THAT'S right. Life insurance statistics tell us the U.S. gains one person every 12 seconds... the Bell System installs a telephone every three seconds!

SINCE THE DAYS OF ALEXANDER GRAHAM BELLS INTEREST IN WORKING WITH DEAF PEOPLE, telephone company folk have devoted a lot of time and effort to working with people who have physical handicaps. In fact, this is one of the major projects of the Telephone Pioneers of America, a group of over 200,000 men and women with 21 years or more of service to the telephone industry. A few years ago, the Library of Congress, which loans "talking book machines" and records to the blind, asked for help in repairing the machines. The Pioneers took over the job and now they maintain more than 70,000 of them. Also, the Pioneers prepare three-dimensional Braille books for blind children. This kind of work is very much in keeping with the great principle of service the Bell System is built upon.

Stokely's FINEST PEACHES

THE OTHER DAY WE LOOKED AT A CALENDAR LISTING IMPORTANT EVENTS, and discovered that March had been a big month in telephone history. Here are a few of the things that have happened... Alexander Graham Bell was born on March 3, 1847... the famous line, "Mr. Watson, come here, I want you," was spoken over the first telephone on March 10, 1876... the 50,000,000th Bell System telephone was installed in March 1957... the first telephone was installed in a U.S. President's office in March, 1929... Southern Bell's 5,000,000th telephone was installed in Nashville, Tennessee in March 1956.

8th grade pupils were permitted to attend this special program. The meeting was called to order by the president, Joe Burdett and Mrs. Clem Clay introduced the speakers. During the business session the club made plans for a food sale. The income will be used for awards at the Science Fair to be held in May. Handie Clay, secretary of the Science Club.

CLUB MEETS

Drs. Leon Riggs and Robert H. Sparks, Dentists, gave an illustrated program on dental health at the regular meeting of the Carlisle Junior Science Club on Wednesday, March 17. Dr. Sparka Riggs talked and emphasized the importance of taking care of the 20 baby teeth in order to later have 32 good permanent teeth. A well balanced diet with at least 4 glasses of milk daily is recommended. Proper cleaning, elimination of sweets, and regular check-ups at the dentist office are also very important.

All the 6th, 7th and 8th grade pupils were permitted to attend this special program. The meeting was called to order by the president, Joe Burdett and Mrs. Clem Clay introduced the speakers. During the business session the club made plans for a food sale. The income will be used for awards at the Science Fair to be held in May. Handie Clay, secretary of the Science Club.
