Rural People Benefit From Water Legislation

More than a million people in rural America may benefit from an expansion in financial support for rural community facilities and family farms authorized by recent legislation, Samuel T. Harrison, Farmers Home Administration state director for Kentucky, said today.

Private investors will provide the bulk of the funds on an insured basis through USDA's Farmers Home Administration.

The legislation signed into law by President Johnson on October 7, authorizes an increase from \$200 to \$450 million in the Farmers Home Administration's ability to insure loans in any one year for rural community facilities including water supply and waste disposal systems, and for the development and purchase of family farms.

FOUR NEW NATIONAL GUARDSMEN—First Lieutenant Raymond G. Leedy, left, executive officer of battery G, 3d Howitzer Battalion, 13th Artillery of the Kentucky National Guard in Carlisle administered the oath of enlistment to four men from the Nicholas County area. They are, from left, Joe

Jennings, Route 2, Carlisle; Donald R. Curtis, Route 1, Sharpburg; Bobby G. Snapp, Route 1, Carlisle and Thomas L. Fox, Route 3, Carlisle. The four enlistments keeps the unit at their maximum authorized strength, a goal they reached and have maintained ever since last March.

grant for water supply or waste disposal systems. The 1,000 field offices of the Farmers Home Administration are being notified to accept applications under the expanded credit authorities. Grant assistance will not be available until funds are appropriated by Congress.

community facilities loans may be made by public bodies and non-profit private organizations. The \$450 million in insured loans plus the \$25 million in grants authorized yearly by the Act can help an estimated 800 rural areas containing approximately one million people obtain needed water.
