

Nicholas Countians,

From page 2
John's in Canada on the 27th. They crossed the Richelieu River, took part in the ill-fated attack on Three Rivers, Quebec in June, later retreated to Crown Point. It was while they were at

Crown Point that the Declaration of Independence was read to the troops. John's Battalion stayed to garrison Fort Mifflin during the winter and got back to Carlisle March, 1777. John Caughey came to

Telephone Talk

by Your Telephone Manager
CHARLES A. HARRIS

BACK-TO-SCHOOL DAYS ARE ALMOST HERE. It's been a great summer for the kids, but it will soon be study time again. Which brings up a very important matter... **SAFE DRIVING**... anywhere and everywhere, but special care when the children go back to school. The younger ones, in particular, are often so busy playing and having a good time on the way to and from school they don't watch for cars as carefully as they should. This means it's up to you to do the watching. Help give them another safe and happy year at school... **DRIVE CAREFULLY.**

THESE DAYS, SHOPPING CENTERS ARE POPPING UP ALL OVER THE COUNTRY! Their big drawing card is the fact that stores of all kinds, from bakeries to barber shops, are all within easy reach of each other. Well, you know, there's another big help to easy, convenient shopping, and you have it right in your own home! It's the Yellow Pages. That combination of handy shopping centers and easy-to-use Yellow Pages is hard to beat. Next time you need a service or a product, why not check the Yellow Pages first for the merchants in the shopping center nearest you?

THE FIRST LONG DISTANCE TELEPHONE CALL EVER MADE, took place on August 10, 1876. It was a one-way call received at Paris, Ontario, Canada by Alexander Graham Bell from his father and uncle at Bradford, Ontario about 76 miles away. Later, Dr. Bell said of this call, "The Bradford experiment is of historical interest because it led to the discovery of the proper combination of parts in a telephone to enable it to become operative upon a long line." What an incredible long way we've come from that 76-mile phone call... to Telsat!

Ford Motor Company has honored
HARPER'S GARAGE
with the FORD DEALER

in recognition of
Progressive management...
Modern sales and service facilities...
Sound merchandising practices...
High quality standards...
Continuing interest in rendering superior service to Ford owners during the year 1964

one Area has been set aside in a cooperative effort by the Department of Fish and Wildlife Resources and the U. S. Forestry Service. The muzzleloader will also have a chance in the regular gun deer season in 64 counties during the five day period of November 10 through 14. The muzzleloader rifle on a statewide basis must not be smaller than a .38 caliber.

BETTER LIGHTING ... ELECTRICALLY

Now that school days are back, it's a good idea to take another look at your children's study areas. Much of any student's success in school (and life) may depend upon a comfortable, well-lighted study area at home. Adequate lighting is of major importance, yet it is very inexpensive. A simple lamp can transform a dingy area into an ideal study area. Remember, studying is hard work; 8 hours of study uses as much energy as a 33 mile hike. Lighten your children's burden and improve their chances of success by providing a good study area.
