

ELLISVILLE HOMEMAKERS
By Mrs. John King
The Ellisville Homemakers Club met Sept. 1, with Mrs. John King as hostess, for an all-day meeting. There were 15 members, seven children and Mrs. Charles Wilson present.
The meeting was called to order by the president, Mrs. Jack Tischer. A reading, "Homemakers Collect" was given by Mrs. J. A. Standford and Mrs. Fred Jones gave the devotion.
Mrs. Robert Taylor, the secretary, called the roll and the members answered with the name of their first boy friend.
There was a discussion on the possibilities of the club taking a trip to a glass factory in West Virginia. The meeting was then adjourned for lunch.
Following lunch, members discussed and voted to have a work-day to begin making door-mats. The work-day will be Sept. 16 at one of the lake cabins.
The lesson, "Clothing Goggles" was given by Mrs. Bege Simpson and Mrs. Thelma Fryman. Mrs. Dorothy Jones led the recreation and secret pals for the past year were revealed and new ones drawn.
The meeting was adjourned by the president, to meet in October with Mrs. Tommy Orimes as hostess.

prices continue on an upward trend. Some increases will be smaller others large. Main reason for price increase is higher labor cost.
In landscape legislation, members were told it is now time to think about planting fall bulbs.
Calendars for next year were filled out and reading report taken.
The president, Mrs. Rubel Williams, read a card of appreciation from past county officers to the club for the loyal support during the past two years.
It was reported to the Club that Mrs. Horace Bell had recently been commissioned a Kentucky Colonel.
Members present were: Mrs. Rubel Williams, Mrs. Warner Low, Mrs. Sherman Hollar, Mrs. Horace Bell, Mrs. W. F. Williams and Mrs. Grimes.
The lesson for Oct. will be planning home furnishings.

RUBBER IN LEAF HALTS "SUPPORT"
By Jack Lavoy
(For Burley Association)
Rubber bands used in tying burley tobacco are considered "foreign-made" a designation which brings a "No-G" tag on the burley offered for sale—and no price support.
The burley industry has renewed its campaign to combat the use of rubber bands for tying leaf tobacco growers. The practice is troublesome to all concerned, but it was pointed out that the grower himself runs the risk of losing money if "foreign made" is found in his tobacco, industry leaders said.
The grower may not only find a basket of choice tobacco without a support price, if it's labeled "No-G", but if it is known that the presence of rubber bands, or any other kind of rubber, was the reason for the tag, it is doubtful that the basket would bring a bid at all.
The reason for the concern in the industry is simple. Rubber and tobacco do not mix, and where they have been mixed accidentally and undetected, the result has been most unpleasant. Burning rubber in a cigarette, or any other tobacco product, is extremely distasteful.
Fred A. Serral, president of the Burley Leaf Tobacco Dealers Association, said "the problem of tobacco bands tied to rubber bands has existed for several years. But this year efforts have been expanded by all phases of the industry to overcome it. Joining in the campaign are the grower association, the U. S. Dept. of Agriculture and its grading services, the manufacturers, the dealer

how limestone helps keep your farm productive

When you apply limestone to your farm land you accomplish several important things at one and the same time.

1. You replace the calcium and magnesium (lime) that has been lost through cropping, erosion, and leaching.
 2. The acid condition of your soil, that has developed as the result of the loss of lime, is corrected—thus the soil is "sweetened."
 3. The activity of favorable bacteria is stimulated; the decay of organic matter, such as manure, straw, and stubble, is hastened, and the nitrogen-fixing processes are promoted.
 4. Other plant foods, especially phosphorus, are kept in more available form.
 5. Soil structure is improved; heavy clays and silts are made looser and easier to till.
- Lime a part of your farm each year and make this operation a regular part of your farm program.
The new fine AGRICULTURAL LIMESTONE is now available at **BOURBON LIMESTONE CO.**

Second row: Susan Hutchison, Mabel McIntyre, Laura Mitchell, Jennie Wagner, Elizabeth Eastyvine, Sue Roberts. --- See page 9 for Red team.

put up for sale, any lot of basket found to contain "rubber bands" when inspected by a federal grader will be graded "No Grade" and will also carry no price support.
W. L. Staton, executive secretary of the Burley Tobacco Growers Cooperative Association which administers the price support program in five states, said "the problem of rubber bands and other foreign material in tobacco—mainly because of negligence—has caused concern for the entire industry. We hope the grower will realize what he really has at stake when he is careless or indifferent in preparing his crop for market. When rubber bands are found in the bundles the inspector has no recourse other than to grade it "No-G" and that carries no price support.

ers and others." The federal grading service says that "when
