It's National 4-H Club Week--Sept. 25 - Oct. 2

And that's a special event for 4-H members all over the country.

The objectives of National 4-H Club Week are to increase public understanding of 4-H aims and methods, expand support for year round activities, to influence more young people to join 4-H and to honor 4-H friends and express appreciation for their assistance.

Just who is the 4-H Club member who lives in the town in the above picture? It may be any one of the more than 21/2 million 4-H'ers anywhere in the U. S. In Kentucky alone there are approximately 85,000 who are members of 4-H Clubs in every county of our state.

No section of the country is excluded. There are clubs in cities as well as in rural communities. In earlier times, 4-H was for rural or farm boys and girls interested only in agriculture, but in recent years, projects and activities have been developed in which all boys and girls can participate whether raised on a farm or in a city.

What do 4-Hers do? Well, there are dozens of activities that club members participate in all year round. There are approximately 35 different projects such as livestock, clothing, cooking, grooming, safety, tractor and others. Some of the activities include talent shows, demonstration contests, tours and exhibits.

It is hard to say how much 4-H is worth, this depends on how active a boy or girl is in club work. Former 4-Hers, who worked hard and set high goals to obtain through 4-H, are quick to say how proud they are to have been in 4-H and how many opportunities were made available to them.

It isn't hard to find 4-H alumni. They're everywhere. They are doctors, nurses, farmers, businessmen, teachers and people in every type of work in the country today.

4-H Club programs are developed on a county level with local leaders taking a major part of the responsibility of planning and helping find adult leaders to assist in carrying out the program.

When you pass a home where there is a sign indicating that a 4-H'er lives there, you can rest assured that there is a boy or girl who is interested in making the Best Better and who thinks more clearly, with a more loyal heart, active hands, and is dedicated to better living.

#1
Great Job, Son
Mr. and Mrs. Lucian Robinson congratualte their son, Lucian, Jr., who was the guest speaker of the Nicholas County 4-H Achievement meeting held last week at the 4-H Camp. Mr. Robinson is minister of the Gardenside Christian Church of Lexington, Ky. His talk was concerned with the characteristics of a square and what young people can do to become better citizens. Everyone present enjoyed the talk very much.

Former 4-H'ers Recognized

Recognition of four former Nicholas County 4-H members was one of the outstanding highlights at the 1965 4-H Achievement and awards program held last week.

In the above picture, G. L. Curtsinger, president of the Nicholas Co. 4-H Council welcomed back home Dr. Wm. E. Sexton, and Jimmy Judge, two of the four former 4-H'ers being recognized this year.

Dr. Wm. Sexton, son of Mr. and Mrs. Clyde Sexton, participated primarily in the 4-H woodworking project and was very active in the demonstration and speech events. While attending Carlisle High School, he played football and basketball and was a member of the National Honor Society and Who's Who. As a member of Scout Troop 15 in Carlisle with Scoutmaster "Smitty", who everyone remembers, he helped erect the log cabin which is standing near the city recreation park.

After graduation from Carlisle High School in 1948, it was off to Eastern State College at Richmond, Ky. for two years prior to entering the U.S. Air Force to serve 3 1/2 years as training instructor at Lackland Air Force Base in Texas and in Japan for 18 months.

Discharge from military service enabled William to return to Eastern State College in 1955 to continue his studies and graduate in 1957. From 1957-60 he was employed as a full time faculty member of Eastern during the regular school term and he attended the University of Illinois at Urbana, Illinois during the summer months to do graduate work. In 1960, he received his masters degree from the University of Illinois.

Furtherance of his education was one of William's goals so he took sabbatical leave from Eastern in 1963 to work on his Doctorate of Education at the University of Missouri where he also was a member of the faculty of the industrial education department. In August of this year, the Ed D degree was awarded to William and he returned to Eastern State College as chairman of the Department of Industrial Technology.

Dr. Sexton is the past president of the Kentucky Industrial Arts Association, past vice-president of the Kentucky Industrial Education Association, member of the Kappa Delta Pi and Phi Delta Kappa Fraternities, the National Education Association, Kentucky Industrial Education Association, the American Vocational Association, the Council of Industrial Arts for Teachers and Educators, and the National Association of Industrial Teachers Association.

He is married to the former Miss Helen Ruddell of Carlisle and they have two sons-Michael (12) and Greg (9). The Sextons are members of the Christian Church. Dr. Sexton has served as Scout Master for Boy Scout Troop 52 at the Model Lab School at Richmond.

When we contacted Dr. Sexton recently he told us, "We are attempting to develop technology programs to prepare people for employment occupations. I feel that my participation in 4-H has contributed to what I have accomplished and am doing."

Mr. Jimmy Judge, son of Mr. and Mrs. James Judge of Moorefield, was a 4-H'er from 1945-48 with livestock as his major project. He was a member of the livestock judging team and also a member of the county meat demonstration that placed second in the district contest. He was county and district winner in individual demonstration one year and received a blue ribbon at the State event.

During his high school years at Nicholas County, he was very active in FFA work. He was a chapter officer and received the State Farmer Degree.

From 1952-56 he attended the University of Kentucky majoring in general agriculture and graduated with a 3.32 standing. While at the University, he was a member of the Alpha Zeta and Gamma Sigma Delta, agriculture honorary fraternities.

Service in the U. S. Army from 1956-58 as a lieutenant at Fort Sill, Oklahoma enabled Jim to further develop his leadership ability. His principal duty was communications instructor in artillery and missile school. He now holds rank of captain in the Kentucky National Guard.

The four years following military service were taken up by management of a 600 acre tobacco and beef farm and then Jimmy returned to the University of Kentucky to do graduate work in vocational agricultural education. He has been teaching vocational agriculture at George Rogers Clark High School at Winchester during the regular school term and attending summer school during the summer months to continue work toward his masters degree.

He is married to the former Miss Kathleen McKee and they have one child-girl, 5 1/2 years old.

* * * * *

Mrs. R. S. Wills, Jr., daughter of Mr. and Mrs. Howard Irvin of Moorefield, was in 4-H for seven years. She participated in the following projects: clothing (6 years), grooming (2 years), poultry (4 years), leadership (2 years), room improvement (4 years), and lawn improvement (2 years).

Mrs. Wills was county champion in the room improvement project and was county runner-up, county winner, and district runner-up in demonstrations. She was president of the Moorefield Teenage Club one year and secretary of the club one year.

After graduation from high school, she was awarded a $1200 Keeneland Scholarship, at Morehead State College, she was very active in campus activities and was a member of the following organizations: National Student Educational Association, Cosmopolitan Club, Student Council, Morehead Players, Kappa Delta Pi, and the Forensic League. Her leadership responsibilities included-treasurer of the Literary Arts Club, vice-president of the Sophomore Honor Society, dorm counselor for 2 years, residence secretary, residence president, and she was elected to the Who's Who in American Colleges and Universities.

Following graduation from Morehead State College with an A.B. degree in English, she taught in the Paris, Ky. schools and is presently teaching English in Nicholas County High School, works with speech classes and serves as Junior High Cheerleaders sponsor.

Mrs. Wills is active in the following educational and professional organizations: Kentucky and National Councils of Teachers of English, Kentucky Speech Association, Parents and Teachers Association, Nicholas County Educational Association, Kentucky and National Education Association and the Moorefield Homemakers Club.

* * * * *

Nine years in 4-H proved to be most gratifying and rewarding to Sylvia McCarty, daughter of Mr. and Mrs. C. E. McCarty of Carlisle. During those nine years, she participated in the sewing, safety, canning, grooming, electric, and housekeeping projects.

Participation in 4-H was not limited to project work only. She participated in the demonstration and speech events at the annual 4-H rallies each year. She was county and district champion in the 4-H electric demonstration and participated in the state contest held at Lexington. She won several project medals for her achievement in her projects.

For six years, she was a delegate to the State 4-H Week held at Lexington each year in June.

The most exciting and rewarding event for Sylvia was representing Nicholas County and Kentucky at the National 4-H Club Congress in Chicago in the safety project in 1957.

As the moment neared for naming the national safety project winner, all ears were strained. When the winner's name was announced, who was it? Sylvia McCarty of Nicholas County, Kentucky, had received the greatest honor that any 4-Her can receive for project work. Along with the title of national safety champion went a $400 college scholarship given by General Motors, national sponsor of the project. Due to other commitments, Miss McCarty declined the scholarship.

After graduating from Carlisle High School, she enrolled in the Lexington Clinic for x-ray training and remained there for 4 1/2 years. For the past 3 years, she has worked in the Flemingsburg Hospital as x-ray technician.

Miss McCarty married Charles Ray Argo of Ewing, Kentucky in February of 1963. Mr. Argo is a farmer and operates heavy earth moving equipment.

When asked about her 4-H experiences recently, Mrs. Argo replied, "It is certainly worth it when you stay with 4-H and do the work. Junior Week and all the other 4-H events and activities bring 4-H'ers closer together."

The 4-H Alumni Recognition program is designed to recognize former 4-H members for outstanding achievement, community leadership, public service, and the receipients this year exemplify the ideals of clearer thinking, greater loyalty, larger service, and better living as expressed in the 4-H Club pledge.

Kay Threlkeld and Teresa Ellington show Lavina McFarland the awards they received for their participation in 4-H this past year.

"I sure can use these scissors," Betty Campbell told her Mother Mrs. Alvin Campbell. The scissors were presented to Betty as an award for winning the county sewing demonstration at the County 4-H Rally held last spring. Lily Mills Co. is the sponsor of the award.

Sally Wilson, Eddie Fryman, Carolyn Trapp, Gary Stevens, and Teresa Ellington are all smiles after the awards were presented. Each of them were recognized for their 4-H work this past year.

Newspapers

Continued from page 2

and this year was broadened into a year-around program of education and information sponsored by the Newspaper Public Information Committee of Newspaper Association Managers, representing 10,000 newspapers in the United States with over 80 million circulation.

"The information program," explained Henry, "is designed to bring newspapers and their readers closer together and to point out to readers the partnership between them and their newspapers. Readers need newspapers, and newspapers need readers. In a very true sense, they are partners in freedom."

Newspapers, he added, have successfully withstood two formidable competitors in the past 40 years--radio and television. Each would be the doom of newspapers, it was predicted, but instead newspapers have emerged stronger and with greater vitality, more readers, more advertisers, and greater service to the public than ever before.

Newspaper publishing today ranks high among the nations manufacturing industries, accounting for 1.53% of the national industrial output. This compares with 1.82% for the auto industry, 1.52% for all metal products, and 1.48% for drugs and medicines.

Circulation of daily newspapers last year hit an all-time high of 60,412,266, a gain of 1,500,000 over the year before. Weekly newspapers jumped to a record 25,036,031--an increase of 1,000,000! Consumption of newsprint was the highest ever--8,000,008,000,000 tons--an average of five pounds of newsprint a week for every newspaper-reading family.

Newspaper employment since 1947 has grown three-and-one half times faster than all manufacturing and there are 330,000 persons on daily newspaper payroll alone today. Journalism school enrollment nationally is up to 15,820 --highest since 1948--indicating a solid faith in the future of newspapers on the part of young people.

Still another index of the virility of the business, and the confidence of their owners in the future, is the continued investment of publishers in new plants and equipment at the rate of $100,000,000 a year.

Every newspaper is built on solvency. Newspapers must be self-supporting. They receive no grants, no government subsidies. Their economic independence is essential to the preservation of a free press in an open and free society.

"As long as the press is free," concluded Henry, "the people will know what's going on in their free society, and what's going on in their government. This makes newspapers become partners in freedom with their readers. Newspapers, like people, are not perfect, but their attention to the public's business is the public's best insurance against government inefficiency and wrongdoings."

NATIONAL NEWSPAPER WEEK
OCT. 10-16
1965

AT AUCTION
487.3 Acres - 12.62 Acre Tobacco Base
Saturday Morning, October 2, 1965, 10 A.M.
Blount & Beasley Farm (THE OLD VIMONT PLACE)
Vimont Lane, Millersburg, Ky.

GENERAL: Here is a fine Bourbon County farm, well watered and well located. It is a real money maker. Ideally located, this highly productive farm has 12.62 acre Tobacco Base, 5.8 acre Wheat Allotment and 55 acre Corn Base. It is bordered by more than 3 miles of Hinkston Creek, having 3 ponds and a well that CANNOT be pumped dry, therefore you have an abundance of water along with rich, fertile soil.
LOCATION: Only 0.2 miles from Millersburg and 7.5 miles from Paris, on good county maintained road, this bonanza has scenic views that artists cannot capture.
IMPROVEMENTS: Main house - a nine room brick and frame with modern bath, kitchen, large basement and garage; complete Dairy Operation with modern milk room, 6 stanchion milking parlor, loafing shed with running water, 220 volt service, 9 bent stock barn and 3 large silos; three 6 bent Tobacco barns, one 5 bent Tobacco barn, one 4 bent Tobacco barn; 30'x40' Stock barn; 2 good Tenant houses on masonry foundation and numerous other out-buildings.
REASON FOR SELLING: To settle Estate and dissolve partnership.
TERMS: 10% Down on day of sale, balance with deed or liberal long term financing will be available. Limited possession with deed. Full and complete possession on or before March 1, 1966.
Rarely is an opportunity presented to the public where such desirable property is offered for sale to the highest bidder.
OWNERS: Mrs. Mary Blount Beasley and Estate of Dr. Henry C. Blount.
Attorneys: Clay and Edwards, Mt. Sterling, Kentucky

CARLISLE, KY.

It's 1966. Rise up with Dodge. Get with the swinging cars of the year!
JOIN THE DODGE REBELLION
Why wait, when your year is here? The year to snap tired old ties, to break old buying habits. The year to really express yourself . . . with the '66 swingers from Dodge. Different, exciting cars for people with different, exciting tastes. Rally 'round Dodge for '66. Dart, Coronet, Polara, Monaco . . . cars made to help you kick the dull driving habit. There are lots of Dodges for you to hang your personal rebellion on.
Every one backed by a 5-year or 50,000-mile warranty.* Every one with these features that used to cost extra but now come standard: Outside mirror. Padded dash. Variable-speed electric windshield wipers and washers. Backup lights. Turn signals. Seat belts, two front and two rear. And lots more with Dodge . . . the beautiful Rebellion on wheels. Stir up your spirit and march to headquarters.

Stamp out cramped compacts; get with man-sized Dart.
'66 Dodge Dart Still talking about squeezed-up compacts, when you'd rather do something about them? Put your money where Dart is! Unexpectedly big inside, long outside. Six or V8 power. Rise up with Dart! Be expansive without being expensive

'66 Dodge Coronet Here comes Coronet . . . sharp, smart, sassy, the greatest thing from Dodge since Year One. Loaded with luxury the higher-priced cars haven't caught onto yet. With a choice of five engines, designed to make the walls of Dullsville come tumbling down. Get away from look-alike, first-cousin cars with Coronet

Dullsville falls, Coronet rises in '66.

'66 Dodge Polara Snap, crackle, pop, go the ties that bind. You're up and out of the rut with Polara. More "big." More "hot." A lot of standard extras (like a 383 cubic inch V8) at no extra cost. See it now. And if you're carrying a big torch for a car that'll really move you, bring the torch along.

Demand more "big" in your big car; insist on Dodge-sized Polara.

DODGE DIVISION CHRYSLER MOTORS CORPORATION

*HERE'S HOW DODGE'S 5-YEAR, 50,000-MILE ENGINE AND DRIVE TRAIN WARRANTY PROTECTS YOU: Chrysler Corporation confidently warrants all of the following vital parts of its 1966 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for such parts or labor: engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excepting manual clutch), torque converter, drive shaft, universal joints, rear axle and differential, and rear wheel bearings.
REQUIRED MAINTENANCE: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles, whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.
