Readers' Letters To The Lexington Herald Saturday, April 1 (Please Address Letters to Managing Editor) 16, 1966.

**Misleading Story**  
Many times it seems to me that misstatements can best be answered by ignoring them. When, however, innocent parties and groups are being injured by misstatements I feel that those who can rectify such misstatements in any other speak up or become a party to the misstatement.

The Saturday, April 9, issue of The Lexington Herald and The Lexington Leader carried a news item, "Candidates in the period at New High School Admitted," which is misleading and does great injustice to the faculty and student body of Nicholas County High School.

On Tuesday, April 5, a representative of the state superintendent's office, the architect for the addition of the Nicholas County High School building, the contractor, the chairman of the Nicholas County Board of Education and I inspected the addition. If any new dimensions and level grades had been taken for the walls I saw no evidence of it. In my opinion, do not close it. It is a bad work.

The statement, "Nicholas County High School has been added to the scene of our dining school hours" adds no more than I am able to express because it is, in my opinion, do not close it. It is a bad work.

ing conscientious professional, a fine student body.

My first impulse was to ignore the matter in taxation" but since the state superintendent's office is involved, I felt it was my duty to speak up.

The matter was discussed and it was decided that more information should be obtained before any action was taken.
