Homemakers

Jack Tincher. Devotional was given by Mrs. Reana Smoot.
The lesson "Writing a Lamp" was given by Mrs. Wilson. She showed several old lamps that had been stored. It was very interesting and helpful lesson. Everyone was interested in writing a lamp of their own.
The next meeting is planned for May 4, at the home of Mrs. Reana Smoot and Mrs. Thelma Fryman.

ANNOUNCEMENT!

Shell Chemical Headquarters Fly Control

A Dairy and Beef Cattle back rubber, loaded with Ciodrin, gives you lasting fly control, saves work.

New dairy cows and beef cattle can use back rubbers and apply their own fly control. Ciodrin insecticide makes it possible because: 1) It has the staying power to maintain fly control out the pasture and 2) Ciodrin can give lasting dairy and beef animals protection against horn flies and face flies without creating problems in milk. Heifers can also use treatment. Ciodrin is available in quart and gallon at the Shell Fly Control Headquarters in our store.

Mud pies aren't so muddy...

when you have safe, flameless electric water heating!

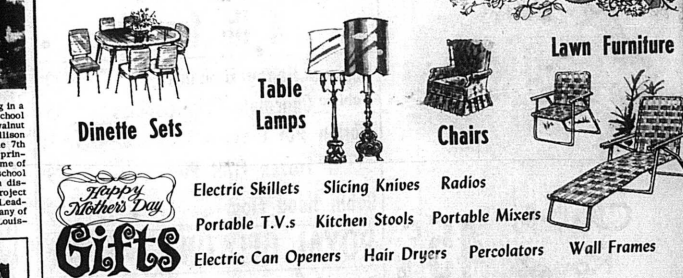

When that little mud-pie cook of yours comes in from her labors, greet her with something good and hot. Water - for her bath and clothes. And you can always be sure of having hot water when you have a flameless electric water heater. Because as you use hot water, your electric water heater is already heating more - safely - twenty-four hours a day. That's what we mean by full-time service. And you can install your electric water heater where you want it... in a closet, in a basement, in a garage, in a mud-pie's room. No fire or vent needed, either. Get an electric water heater at your dealer's today, and be one step closer to total electric living.

WE'LL HELP PAY FOR INSTALLATION if you change from a boiler to 3-inch, 100 ampere service, and install an electric water heater, we'll pay \$25 on your wiring bill. If you have 2-inch service and install an electric water heater, we'll pay \$15 toward additional wiring needed. Offer good to June 30, 1966. See your local COE manager for eligibility.

Nicholas County 4-Hers have been participating in a walnut tree project. In fact, all elementary school students were given the opportunity to plant a walnut tree at home. Here, Peggy Tincher, Dennis Allison and Steve Kimberling (members of the Carlisle 7th and 8th Grade 4-H Club) join Charles Wilson, president of the Carlisle City School, in planting some of the small walnut tree seedlings around their school. Approximately 100 of the seedlings have been distributed throughout Nicholas County. This project is being sponsored by the Bluegrass Area 4-H Leadership Council. The George E. Tomlinson company of Winchester, and the Wood-Mosaic Company in Louisville, donated the trees for the project.
