

Motorola 23" Color

Motorola's new rectangular picture tube is over 2" shorter than conventional round color tubes. So the tube cap on the back of the cabinet doesn't stick out so far. This means a Motorola Compact Color TV doesn't leave a big gap between the cabinet and the wall.

Wouldn't you prefer Color TV with the full screen look... and compact size?

Ivans Brothers Tractor Sales on Market Street opened for business in 1965. It is owned and operated by Iverhild and Calberth Ivans. They are dealers for Massey-Ferguson farm equipment and Iridigstone Motorcycles, and deal in both new and used farm equipment.

Tobacco Contracts Awarded U.K.

Lexington—Three contracts for research health-related aspects of tobacco have been awarded the University of Kentucky Research Foundation by the U.S. Department of Agriculture. They total \$280,473 and will run concurrently for two and one half years. The research is part of the USDA's Agricultural Research Service to determine what substances, if any, in tobacco smoke or tobacco itself may be injurious to health. Further work will be done to prevent formation of such substances, or to remove them. In one project, scientists will study nitrogen metabolism, to examine the effects of enzymatic

and Joe Linville who recently joined the staff, served eight years in the National Guard of Carlisle. He is married to the former Alma Adams. They are the parents of four children and live on Route 2, Carlisle.
Employees of Ivans Brothers Tractor Sales include Imer Hunt, who has been with the firm since the business opened

Kentucky's rising death toll in 1966, the status of a professional driver may mean you will be alive in 1967. Here are a few DON'Ts and DO'S you must remember at all time.
If I DON'T expect the other motorist to be a professional, then when he does make a mistake you will not be surprised in an accident.
(2) DO use caution at all intersections. It is a proven fact that if one driver is alert there will be no accident.
(3) DON'T be habit to your driving. Good driving habits must be acquired while bad driving habits come naturally. Check yours!
(4) DO maintain a safe following distance. Remember in any sup, reaction time and braking distance must be considered.
(5) DO protect your passengers. Sudden stops, starts or swerves are an invitation to a passenger injury. Failure to be alert to conditions ahead of you are the most common causes of passenger injuries.
(6) DON'T overdrive your vehicle. Weather, street or traffic condi-

Rid-Ezy stops 'em both
What happens when cattle must stop grazing to fight horn flies? Cows produce less milk for calves, calves slow down growing, yearling gains suffer.
What happens when beef cattle eat MoorMan's® Rid-Ezy® Medicated? Horn flies are controlled. Cattle graze more. And you save the time, trouble and expense of spraying or other control methods. Summer long, self-feeding of Rid-Ezy on grass stops cattle grubs, too. So does a 14-day mixed-feed treatment in the feedlot. Result is faster gains, less carcass and hide damage.
Added advantage: Rid-Ezy also supplies complete, balanced minerals. Your choice of form, too—blocks or granulat-

This Could Be Your Child

John and his wife Mary blessed with two very normal and healthy girls whom they dearly love, but as the father, John naturally wanted a son, so when Johnny came along John was a very happy man.
They live on a small farm in Western Kentucky and are just getting a start in life as are many other young couples. John explains it this way: "We are rather deep in debt but are very optimistic about the future, and our ability to work hard and make a go of things. After a few months Mary told me she was real worried about Johnny, that something didn't seem just right and she thought we should take him to a doctor. To make a long story short, our doctor told us Johnny had a congenital defect that had not shown up at birth and would need special treatment and a possible operation that would be very costly.
Well, to Mary and I, this news made all of our smiling down. First, we were worried about Johnny and what the future would hold for him, and secondly, how in the world could we pay for such an operation and treatment that was needed.
We went to see our doctor again, talked it all over with him and he told us about Kossair Hospital in Louisville, and that we should go for handicapped children and apply for admission. This we did, and Johnny was admitted to Kossair Hospital for the needed operation and care.
All of this happened three years ago, and as I look out of the window and see Johnny playing as any active boy of his age, it all seems like a dream, thanks to the devotion and care given to

our son at Kossair Hospital, and to the generosity of thousands of Kentuckians who supported Kossair Hospital that has helped over 8,000 indigent crippled children in the past 40 years.
Kossair Hospital is now having its Annual Fund Raising Campaign to help other children of Kentucky like they have helped our Johnny, and although Mary and I don't have much in the way of money, we are sending in what we can to help others, as Kossair Hospital did not charge us any-
