Girl Scout Week

Some of the innumerable "Days" and "Weeks" which we are supposed to celebrate each year in this country are without any notable significance and importance. Some are unconsciously silly. Some are highly significant and deserve the recognition and respect which they are entitled to. That is true of a dozen times over Girl Scout Week, which is to be observed this year during the week of Feb. 24-30.

LETTER TO THE EDITOR:

Ain't It Awful!

Mr. Warren R. Fisher, Editor
My Dear Sir:
I see in your paper that Chief Kelly has called the Council's attention to the unsatisfactory condition of my lot on East Main St. I wonder why it is that you failed to publish my name in the paper? Instead of publishing my name you published a picture of my lot on the weeds on it. At this time there were several other lots in Carlisle that were covered with weeds also, yet those pictures were never published in your paper. Will you please explain this to the public why my lot is always the one that is causing the trouble. As far as an unsatisfactory condition is concerned, we have a very unsatisfactory condition on West Main St. that I have put up with for a number of years. I don't see or hear anything about Chief Kelly reporting this to the council. During the years that the Carlisle, my lot has always been used as a backhoe by the public. I know at this time the conditions are unsatisfactory because these conditions do not seem to worry anyone or the big wheels in Carlisle are calling there is always a truck load of liquor and beer bottles on my lot.

MERCURY VAPOURS

Found this on my desk the other day: "It makes business that makes money without advertising is the MINT. It makes its first and it's up to you to make it last."
-M.V.
We trust you have noted Clifton Waugh's letter to the editor, if you would send me some persons doing when they are well off, and while on the subject of letters to the editor, Mr. Waugh made no willings against using his name which was signed, in the future (as well as present) the Mercury will publish the signatures of all letter writers. If you haven't got that it takes to put your name in a publication, don't waste postage sending it in.
-M.V.
Mrs. Reynolds Gaunce

water lines, but Carlisle's money making gas system went into the red during January to the tune of \$4,500, plus or minus a few, from gas leaks in crowded pipes which supply the town, \$130 a day may not be considered much in this day and time, but we think a crash program is needed to prevent further losses, as possible accidents. We can remember five, six, maybe seven years ago, when William Harger, ex-concouncilman, plugged for preventive maintenance and the laying aside of a few dollars for such a program.

Farm Home

BY Earl R. McClary, Manager, Home Agent
The farm home is a term which describes the ability of a garment to retain its shape throughout life. This means shape creases, flat seams, smooth un wrinkled surfaces and freedom from puckering. The farm home is a term which describes the ability of a garment to retain its shape throughout life. This means shape creases, flat seams, smooth un wrinkled surfaces and freedom from puckering.

20 & 45 Years Ago

Thursday, Feb. 28, 1946
Employees of the local Kroger's grocery store were presented with a check at the Marshall and Gaunce restaurant. A whole range of shape-set textile products for the home, draperies, silencers, and other household items were never heard of in the past. The items which were predicted for the near future.

Monday for Lake Caroline Conservation
one day behind with our bare feet. A lot of us had a good time. It seemed odd to see Blue Grass, Dutch-Gro, and other plants. The following is a list of some of the plants we saw: Cyclopedia Seed Sower, a good ground cover, and a bushy plant. We used a sprayer to spray the plants. We used a sprayer to spray the plants. We used a sprayer to spray the plants.

'Agree or Not, I say what I think...'

By S. C. VAN CUBON
FRANKFORT, Ky.—With the governor's priority legislative package virtually out of the way, the General Assembly takes on a new tempo with legislators busy trying to get some of their own pet measures passed.
The moment of truth arrived, as it always does in each session, as the members of the House and Senate soundly endorsed by the administration, plugged the teeth of the old long form mineral lease no prevalent in the Eastern Kentucky field. Legislation also backed enough to amend the governor's pinball measure.

New Federal Power Grab In Jobless Compensation Bill

A cabal of labor leaders and Washington bureaucrats is using, quietly but with determination, the light of the greatest raid ever aimed at this country's unemployment compensation system.
The bill, which is being introduced in the House by Representative William Clayton Clark, would take away from the states the right to set their own rules for unemployment benefits. It would give the federal government the right to set the rules.
