**TIPS ON BABY CHICKS**  
We would like to remind you folks who plan to start day-old chicks that you're dealing with tiny, delicate—but very fast growing babies. You know from experience that a chick never gets over a good start or a bad one. It just naturally makes good sense to start them off with the nation's favorite chick starter, Purina Chick Starter. It's fortified with ten tiny but vital health boosters. And all of them are thoroughly mixed by Purina's exclusive Micro-Mixing process to make sure that every ounce of ration contains its full share of boosters. Order your Starline news now. You can buy cheaper starting feeds, but where can you find one to match Purina Chick Starter in quality, safety and fast growth from every bag? That's why we beg...

Lots of milk at low cost. That's what many of your neighbors get when they feed Purina Checkboard Dairy 16% Pellet in bulk to keep your cows milking at full capacity. It's packed with vitamins, proteins, and carbohydrates. Cows can't get from grain and roughage alone. You'll check the cost of this all grain ration... and see the results show up in your milk tank. We will be glad to visit with you about this popular, low cost way to feed cows. Low-cost production, you know, is the reason more dairymen feed Purina than any other feed.
