"Buyer, Be Wise, Beware"

CHECK YOUR CHECK WRITING. BE SURE IT'S TAMPER-FREE!

The next time you write a check examine it. Could you raise the amount without any problem? If you could, destroy it and prepare another one that would be harder to alter.

A woman wrote, "I bought some magazines from a young man who said he was working his way through college. As part payment I gave him a check for \$20.00. When the bank returned it the check had been cashed for \$16.00." It was simple, the numeral "16" had been inserted before the 0 and a "teen" added to the written amount.

Prepare your checks carefully. Use up the entire space with your figures and writer numerals or mark out the portion not used.

In all ways, buyer, be wise, beware.

Write your Attorney General, Randolph, Ky., for a free brochure on how you can guard against deceptive sales practices.

Flameless last word (in clothes drying)

ELECTRICITY!

Yes... the last word in clothes drying is electricity. Because it's so clean, so efficient, so safe. Totally flameless, it just can't make dirt. The result is your clothes come out smelling so nice. And they're white, shiny, colors hold their color.

And of course, with an electric clothes dryer you can forget about weather worries... dry your wash indoors. Modern flammes won't see you when you're not there.

So... an electric clothes dryer is your dryer... it's so important a part of that new electric home which everybody lives!
