LET'S TALK CATTLE FEEDING

Yes, this is a good time for you to ask us.. "If these were your cattle, how would you feed and handle them?" and we believe we can give you an honest answer based on Purina Research work and local feedlot and farmers records. We are interested in your FINAL INCOME... not in just selling you a ton of cheap feed. We want you for a good Purina Chow customer this year, next year and every year. So come in and let's talk cattle feeding and cattle wintering.

TURN THOSE STALKS INTO POUNDS

A lot of farmers run feeder calves in their stalk fields. But stalks and "down" corn don't provide the balanced nutrition the calves need to maintain their weight and condition. Cattlemen are fast finding out that the easiest way to supply this nutrition is to feed protein fortified PURINA RANGE CHOW BLOCKS. And here's why cattlemen go for Range Chow Blocks: Easy to handle...saves feed about once a week... weather resistant should hold together in all kinds of weather...easy to store... gives equal chance to all cattle. Smaller and timid cattle aren't crowded out. Turn those stalks into pounds. Call us right away and place your order for Purina Chow Blocks.

STOP THE FEED ROBBERS

Even though you may not realize it, 75 to 90% of the cattle in America have worms. They are little worms, about the size of an eyelash. It doesn't seem like these little worms could cause much damage. But research tests show that worms in the average feedlot steer will consume about $2.20 worth of feed per month. As long as they are present, they slow down growth and rob your pocketbook. KILL THESE ROBBERS by worming your cattle with new Purina Worm Kill Checkers. It does not throw cattle off feed. You can worm pregrant animals. It kills both the mature and immature worms in your cattle. Check with us on how little it costs to worm YOUR CATTLE.

Goose Hunting Underway In Ky.

Frankfort, (Special)--Kentucky's 70-day goose hunting season will open on Nov. 7 and continue through Jan. 15, with the bag and possession limits and the make-up of those limits unchanged from last year, Minor Clark, commissioner of the Department of Fish and Wildlife Resources, announced today.

Clark pointed out that there has been a change in the shooting hours, with legal hunting starting one-half hour before sunrise and continuing until sunset. Last year the shooting period began at sunrise.

The bag and possession limits are again five, which limits may include two Canadas or their subspecies or two white-fronted or one Canada and one whitefronted.

Regulations covering goose hunting:

Motorboats may not be used to take geese but may be used to retrieve crippled or dead geese.

Dogs may be used to retrieve waterfowl of all types.

Artificial decoys may be used. Live decoys are barred.

Shotguns, no larger than 10 gauge, fired from the shoulder may be used. Rifles are barred.

Shotgun must be plugged so that it will hold no more than three shells in barrel and magazine combined.

UK Homecoming Slated Nov. 12

The welcome mat is out at the University of Kentucky's Lexington campus, where thousands of alumni will assemble Saturday, Nov. 12 for their annual homecoming celebration.

Highlights of the day will include a brunch for the returning grads, to be served from 11:30 a.m. to 1:30 p.m. at the Helen G. King Alumni House, the 2 p.m. football game with Houston on Stoll field, and dance at the Phoenix Hotel in downtown Lexington from 9 p.m. to 1 a.m.

President John W. Oswald and Mrs. Oswald also will welcome the alumni at a post-game reception in the Alumni House.

To help the homecomers locate former classmates more readily at the Saturday night dance, areas of the Phoenix Ballroom and connection hall will be designated for graduates of various eras. Two bands will play for dancing.

Registration for the Homecoming guests will begin at the Alumni House at 9:30 a.m. Those who arrive early will have time to inspect the decorated residence halls, fraternity and sorority houses before the 11:30 brunch. All Homecoming decorations are to be based on TV commercials.

Nearly 400 of the state's newspapers editors, radio and television station manager will be guests of the University for the afternoon grid contest.
