Motorola 23" Color
Motorola's new rectangular picture tube is over 2" shorter than conventional round color tubes, so the tube cap on the back of the cabinet doesn't stick out so far. This means a Motorola Compact Color TV doesn't leave a big gap between the cabinet and the wall.
Wouldn't you prefer Color TV with the full screen look... and compact styling?

FLAMELESS
electric heating babies everyone!

Baby's favorite playground is safe, cozy and draft-free when your home has wonderful flameless electric heat. It makes each room an island of clean, even, baby-making warmth—without dryness. Each room can have its own thermostat to give you the exact temperature you want.
Why not convert your present home to flameless electric heating? You'll decide it's worth every penny it costs, once you discover how maintenance-free it is... how much you'll enjoy being "baked" by it. And of course total-electric living means a special low rate from KU.
Call our nearest office for full information on converting your home to electric heat.
