Motorola 23" Color

Motorola's new rectangular picture tube is over 5" shorter than conventional round color tubes, so the tube can't stick out of the cabinet doors! It's just so far. This means a Motorola Color TV doesn't leave a big gap between the cabinet and the wall.

Wouldn't you prefer Color TV with the compact look... and no support styling?

"My husband practices what he preaches, so we live better in our flameless, electrically heated Gold Medallion Home."

says Mrs. Robert I. Jones
"By 'practices what he preaches,' Mrs. Jones means her husband's connection with our company."

"The convenience and cleanliness of electric heating have made it much easier to bring up a household of children," says Mrs. Jones. "And, of course, we also have made our work easier and faster."

Mr. Jones, a Kentucky Utilities Company foreman, says that about three years ago, "When we planned the house three years ago, we wanted the greatest safety for the children combined with maximum convenience for my wife. And with KUC's low rates for total electric living, we find electric heating is very reasonable. We've had absolutely no maintenance costs since the house was built. But then this is only what I've been telling my friends all along—you live better all electrically."
