## Why Is Kindergarten Important

By Mrs. Randel Flowers

Entering school for the first time is an exciting adventure. But will your child be ready for this adventurous journey into a new life? Naturally the better he is equipped, the more successfully will he fare. Kindergarten was de-

signed to help children get ready to learn. How can kindergarten help? We develop good classroom manners as we get the day started. We remove wraps, are seated and go over the day's activities. Citizenship training is fostered through roll call, respect for the flag and singing patriotic songs. We practice good table manners when eating. We have directed play and free play—a time of exploration in the room where the children can learn to share, to care for the materials and to respect the rights of others. We tell and read stories to the children to develop listening skills. They in turn, tell stories also, participate in show-and-tell periods to help enlarge their vocabularies and gain assurance in self-expression. In working with objects we learn to follow directions, to discriminate colors, to notice shapes and sizes, thickness and differences, left and right, up and down—so many concepts which are so necessary for success in first grade.

Music with its rhythmic activities aids in such skills as walking, skipping, stepping, clapping and marching. Musical games and stories

LESSON FOR TODAY . . .

## why a flameless electric range is best

Homework's fun for that "Junior Miss" when Mom teaches her why an electric range is best. And good reasons they are: Automatic controls to make sure of precise heat and timing for perfect results. Heat that works fast and efficiently. Contact heat that goes into the food, not the kitchen, which means cooler cooking. And because flameless electricity simply can't make dirt, your kitchen walls, ceiling and curtains stay clean longer.

With a modern electric range you'll be one step closer to the total electric living that everybody loves. See one at your dealer's today.

WILL HELP PAY FOR WIRING if you change from 240 to 300 volt electric service and install an electric range, we'll give \$15 on your wiring bill. If you have 300 volt service and install an electric range, we'll give \$16 toward additional wiring needed. Offer good to Nov. 30, 1966. See your K.U. or K.U.C. manager for eligibility.

## 80-HEAD of CHOICE-80 Holstein Cows

### SAT. OCT. 1st

10:00 A. M. E. S. T.

I will sell at my farm located between Avon and Clintonville on the Briar Hill Road, 10 miles South of Paris and 1 mile East of the Lexington Signal Depot, the following:

70 Fresh Holstein Cows and 10 heavy springers that are well-bred, vaccinated, TB and Bangs tested and are artificial bred for the past ten years. These cows are good uddered and well typed and are ranging 3 to 6 years old. These cows are averaging 15,000 lbs. per cow produced 18,200 pounds of milk and 725 lbs. of butterfat. This is top herd in B.H.L. production for 80 cows.

We have been in the dairy business for 45 years breeding our herd for production and quality. If you are interested in cows that will produce and will be a credit in any herd, be sure to attend this auction.

Individual health sheets and production sheet with each cow.
