1965: USA supervised tests proved that the '65 Ford runs smoother than a 1970 Rolls-Royce.

1966: After comparison tests, owners of the world's most expensive luxury cars like Jaguar and Mercedes-Benz agreed that '66 Ford was smoother.

1967: At the Lake Placid Olympic ski jump a '67 Ford took leap after pushing 1600 and rode away still quiet, still strong. Over 100 Ford went on a bone-jarring unspicuous ride and a grueling top-up and down the Los Angeles Coliseum steps. The results were always the same: still quiet, still strong.

Year after year, you're ahead in a Ford - ahead in quiet, ahead in strength.

Year after year, we do things you'd never do to demonstrate Ford's quiet and strength. This year's tests were the toughest yet. But the durable Ford came through again - quiet and strong. That's because the 1967 Ford is the strongest, quietest Ford we've ever built. Over 150 important parts have been strengthened and improved. And the '67 offers plenty of convenience and luxury features too. SelectShift Cruise-O-Matic transmission that's fully automatic and fully manual. It all adds up to a pretty strong argument for saving at your Ford Dealer's now. Quiet because it's stronger... stronger because it's better built.

IF YOU CAN'T TAKE IT... YOU CAN STILL SEE IT

NOW'S THE TIME TO SAVE AT YOUR FORD DEALER'S!

It's Planting Time! Now is the very best time to plant Petunias.

They withstand cold temperatures with little protection. If planted early Petunias develop a larger and stronger root system, thus making a more hearty and flowering plant.

We have a large selection of Petunias ready for planting now at our Greenhouses.
