Wanton Destruction

Vandalism takes many forms, but the one that does the greatest damage is the destruction of road signs. Members of the Carlisle Junior Chamber of Commerce worked long and hard during the month to provide every road sign in the county with its proper name sign.

About the only way malicious vandalism can be stopped is for the citizens of Nicholas County to report people as they see them tampering with the road signs. Report, then act as witness on the trials, or just allow the County to become over-run by a few irresponsible individuals. It is noted that the last report of the Grand Jury recommended that the Nicholas Fiscal Court replace the various road signs at intersections throughout the County. As recently as June 7, 1937, an ordinance was passed to the effect that where they would other replacement signs, 18 different roads which have been completely destroyed or replaced, and which have not been replaced, in your county, it can be as good as lost as you wish it to be.

A Strong Foundation

Shown is one of the four basins for the Nicholas County Water District elevated water tower on the Hickory Ridge Road. As can readily be seen, plenty of reinforcing steel is being used.

MERCURY VAPOURS

by Warren R. Fisher

This said: Americans work by hours and 25 minutes each day just to meet their federal, state and local taxes. This is an increase of 25 minutes over the past year, according to the Tax Foundation in contrast to the 1932-33 period. Public works only pay for its housing, 10 minutes to provide for its housing, 10 and 14 minutes transportation, 20 cents, 40 minutes for its health and medical expenses. All other expenses except only 1 hour and six minutes of daily life. Advertising Retailer Dwight... He said: Americans work by hours...

Washington Report From Your Congressman

JOHN C. WATTS Long Sessions of Congress Conflict With Congressmen's Desire to Return Home... In this time each year, the conflict of long sessions of Congress versus desire to meet constituents outside every Member of Congress. ... "I am not trying to be smart by criticizing the work of the House," he said. "I am simply expressing my feeling that the House should do a better job. Without the Carlisle Mercury I could not do this."

Local Business

In Washington and fight for those issues which are vital to the Sixth District, and that I cannot just leave and come home whenever I may wish, nevertheless, I am sorry that I cannot be there at the time of every meeting in the District and meeting with any individual who wish to come to my Nicholasville office.

Local Business Vehicle Offered For Community Action

The relationship of community property to the local newspaper cannot be precisely measured. There is evidence of close relationship. A progressive community is likely to support the local newspaper. A good newspaper is not likely to be found in a fading town. Of course, the question of cause and effect may be mutual. Certainly, in some cases, a good newspaper simply results from local action. It is which is blessed with uncommon views of prosperity. However, there are opportunities in many cases where the leadership of the local newspaper, and its adventures have given new life to depressed communities.

I Say What I Think AGREE or NOT

FRANKFORT, Ky. -- If the recent primary campaign, particularly on the Democratic side seemed strange by its quietness, the November final has a factor that may make it one of the most eagerly anticipated in recent history. More Republicans are competing for legislative seats than in recent memory. There are only 19 of the 100 House seats where Republicans are notified in opposition and only 3 of the 19 Senate seats where they have no candidate.

This information comes from Legislative sources which has just released a list of all candidates for legislative seats. It is not clear why there are more Republicans seeking the office this year. Four years ago, and two years ago after the final election, the Republican legislative leadership had just been elected more candidates if they had just been opposing in several of the areas.

DAD a box of CANDY!

Not a thing when it's a box of Belle Camps from Hopkins Drug Co. P.S. We also have lots of tie-man gifts for him, June 15.

Auxiliary Meets

The Auxiliary of the Nicholas County Hospital met on June 8 at 7:30 p.m. in the basement of the library. The following officers were elected: Ginger Hill, president; Mrs. Geneva Allison, Vice; and Messrs. Chairman and Mrs. Lela Gaten, publicity chairwomen. The main topic of discussion was membership. The membership dues are \$10 lifetime membership, \$3 inactive membership and 12 active membership. Mrs. Carson spoke for 11 minutes in becoming a member and may contact Mrs. Carol Sparks, phone 917, Mrs. Lela Gaten, phone 981, Mrs. Billie Osterman, phone 573, Mrs. Frances Crimley, phone 619 or Mrs. Kay Willy, 592-2.

Discussion was held on having programs that would make the hospital and to make beds for indigent patients who are patients in the hospital and to make beds for indigent patients who are patients in the hospital and to make beds for indigent patients who are patients in the hospital...

Local businessmen mix business and pleasure when they visited the Industrial Foundation at Florence, Ky., so that they might observe first hand how to prepare for industrial expansion. That evening (Wednesday) they watched the Cincinnati Reds baseball game.

A Breath of Fresh Air for American Industry

It means coordinating state and Federal programs with rural needs. It means setting up job training programs and improved community facilities. It means consulting engineers for existing and new-formed small businesses. It means investigating new types of rural industries and new communities. The fresh air that industry is finding in rural America means progress and growth for all of us.
