Be A Proud American

The National Observer pointed out in a recent article that we should quit apologizing for America being America. "So it is, after all, so no everyone participates equally why should they, must being what he is, so the "quality" of American life does not please those who would like to dictate "quality" but what other nation's system would you substitute for it?"

The United States in the past 20 years has written the most remarkable record of any great power in the history of the world, and a commendable record of any nation in the history of the world. It is today in Vietnam, repeatedly, we have used overwhelming military force to defend the Viet Nam. Repeatedly, we have used overwhelming military force to defend the Viet Nam, the rights, the lives and the honor of America's citizens.

More Noise Than Substance

If you do something bad, everybody always knows about it, but you don't do it. You do it, but you don't do it. You do it, but you don't do it. You do it, but you don't do it.

By S. C. Van Caron

Agree Or Not, I Say

I Say What I Think

The Democratic House members came to town in a show of unity and solidarity. They said, and I believe, that they were in the House since 1946 with the exception of one term. It was seeking the job. He has been majority leader in the past. One of his problems may be that he had been a supporter of the A.P. Chandler faction of the party, but he probably is the most experienced and one of the most capable on the House floor for the job.

Speaker for the last two sessions. He is active in legislative and executive work. He is active in legislative and executive work. He is active in legislative and executive work.

These are all nice sounding phrases, but if you examine them closely they are nothing but statements of fact. He is active in legislative and executive work. He is active in legislative and executive work.

Local Business

By S. J. Talbot, Chairman Dept. of Economics, University of Mississippi

Economists predict that the Gross National Product of the United States may reach \$190 billion dollars for 1968. It will be an increase of one million dollars over 1967.

In the United States, and other economically mature nations, an increasing portion of the GNP results from services rather than production of material goods.

Advertising Helps Increase Prosperity

Material goods may be in competition with the producer of entertainment services. The service industry provides a bank of funds in the increased production of goods and services.

BE THANKFUL

As we Americans sit down to our traditional turkey on this Thanksgiving Day in homes across the nation we have much for which to be thankful. True, there are many disquieting factors giving cause for grave concern, both on the domestic and international scenes, but if we look deep enough, we shall find unmistakable reasons for thanksgiving.

Consider the many liberties in this nation and be thankful for their existence. Be thankful for our freedom to achieve, work and advance; for our freedom to worship; for our right to free speech and free elections.

While we are grateful for a special day when we can join with others all over the country in counting our blessings and thanking God for them, we are still challenged to make every day a Thanksgiving Day as we recall the blessings that surround us.

Truly there is much for which we can be thankful. And this overflowing of good should daily remind us to pray for peace throughout the world so that all mankind may live in harmony and enjoy the fruits of a better life.

Let's Talk About Community Action

By Lee Taylor

In a previous column it was mentioned that the action of a person by finding the educational or environmental reasons for that action.

Buyer, Beware!
Click, Click, Beware!
Who Does the Reputation As Carefully As He Checks Yours

Make a large purchase or sign up for a transaction calling for extended credit, the person or firm with which he deals will ask for references and credit background.

Buyer beware! This is as reasonable and good business practice, but how often does he do the same thing? How often does he ask for references, or late even the most elementary steps to determine the business or credit background of the salesman or the concern the salesman represents?

It is the obligation of the consumer to do these things when a normal prudent man would do under similar circumstances. If he does less, he may find himself in difficulty from within the Consumer Protection Division nor the courts can extricate him.

An ounce of care is a pound of cure.

Dear Sirs:
I would please run an item in the local of your newspaper, I'm trying to locate some descendants or relatives of the family by the name of "Petersen" or "Peterson" who stood in your community in the mid-1800's. His daughter, Mrs. Ellen (Lambert) married William David Petersen, son of Mrs. March 3, 1842.

I have a letter that was written by my father, Peter, to my mother, Lisa Springs, Ky., 1842.

Thanking you in advance,
Yours Truly,
Fred W. Collins

In regard to some previous statements, I would like to defend myself. I am a resident of Kentucky, not New York, as a resident person who has lived in Kentucky since 1946.

As to the statement indicating that I had paid for my year of government, that is true. It is a different way that most of us realize. This charitable deduction to me as a resident of Kentucky is paid for in Viet Nam by my young men throughout our nation. It is a dear price to pay regardless of your political opinions.

In my opinion I don't feel that the people of Kentucky have made a mistake in electing Mr. Nixon as our governor. I would like to congratulate the people of Kentucky who supported Mr. Nixon because they worked very hard for their candidate. I respect the voters of Kentucky and the state of Kentucky, and their right to vote as they please.
