National Library Week

April 21-27 will mark the observance of National Library Week. The purpose of this occasion is to encourage the development of the national reading habit as the foundation of a better informed people. Within our nation's libraries are stored all the wonders of the world's literature, scientific and technical knowledge, philosophy, economic, art, political—every area of imaginable human interest—awaiting the exploring mind.

Before It Is Too Late!

The history of Great Britain during the past quarter century, in its preliminary stages, is a time when the last days of the old world was administered, the patient is too sick to be cured, what has killed him.

A Basis For Progress

We frequently hear about "the other war" in Viet Nam. This other war was not the war to bring peace and reality to the countryside after military hardware has been dumped there.

MERCURY VAPORS

Here I've fiddled a way days on end, putting off another vapour column. It's getting so I'd almost rather do most anything else than pin myself down to this type of writing.

LETTERS from our readers

Mr. Hunter began digging in an attempt to discover the reason. He dug about 20 feet, about eight feet below the surface he discovered a hole. There was no hole, dirt and oak digging deeper he found a hole.

Agree Or Not,

I Say What I Think
By S. C. Van Curen
President Johnson jilted the nation last week when he said, "I shall not seek and will not accept the nomination of my party for another term as your president."

My Way

Only two other presidents in similar positions have taken such a stance—Harry S. Truman and Calvin Coolidge, but neither of those made his position known so abruptly or so dramatically.

Twenty & Forty-Five Years Ago

Thursday, April 15, 1948
Terrorist spring rains swept through Nicholas County causing flooding at Myers and Pleasant Valley. About 25 families had to leave their homes. U.S. 88 was closed both at Millersburg and Blue Licks and water reached a depth of six feet over the road at Myers.

My Way

Only two other presidents in similar positions have taken such a stance—Harry S. Truman and Calvin Coolidge, but neither of those made his position known so abruptly or so dramatically.
