It's a women's WHIRL
BY MAGGI
It's fairly safe to predict the new sidecars for bicycles are going to be the "in" thing for young mothers in the suburbs. Built similar to those used on motorcycles, the new sidecar can be installed on any 26-inch wheel bicycle in five minutes. Youngster and packages each fit into a separate, roomy compartment, while mama has a convenient and pleasant way to get her legs and waistline trim. Saves a lot of money on baby-sitters, too!
Each spring sees an increase in Americans on the move. We are reminded that the second car, which is such a convenience to a busy woman, can become a problem when you're moving to a new location. One way to solve the problem is to move the car right along with the furniture and other household goods. Even the family boat can be transported this way. Cars, boats and the like can all be moved in the same van as household goods so long as they are part of the same shipment.
According to a study released recently, the California Department of Public Health, the death rate for divorced men is more than twice that for married men. Divorced men also fall ill almost twice as often as married men.

STRENGTH FOR THESE DAYS
All things work together for good to them that love God.—(Rom. 8:28)
What do we think when we go into some new situation? If we are starting on a new job, if we are entering a new school, if we are moving into a new house, our approach to this new experience, our thoughts concerning ourself and our abilities are most important. As we keep this in mind we will prove for ourself how true it is; we will discover that we go to meet our good and that already our good is running to meet us.

Juniors To Present Second Performance

Members of the NCHS band will provide music for the play. Period costumes and sets were made by the members of the junior class.
