information on installation costs. The ASCS office also can advise the farmer what cost-sharing assistance is available. And my office will be glad to send any interested farmer a copy of Agriculture's pamphlet, "Rural Recreation Enterprises for Profit." Such a project could be fun, and, hopefully, profitable.

Delay in Mail: It has been my office policy to answer mail within a day or two of receipt. Recently, however, due to the flood of letters I have received for and against gun control legislation, my office staff, despite extra hours of work, is not able to answer all the mail as rapidly as I would like. I hope the residents of the Sixth District will pardon any delay and know that every effort is being made to reply to their letters just as soon as possible.

$35,000 Estimated Cost Of Church Renovation

Present plans call for sand-blasting and tuck-pointing of the exterior brick surface, repairs to all windows and frames, the replacement of the heating system, plastering and painting of the interior walls, and complete renovation of the ceiling in the Sanctuary, and repair of the baptistery.

It is estimated that the cost will be $35,000. When the work is completed, there will be an open house for the general public to view and appreciate the work.

The Carlisle Christian Church membership have voted to renovate their present building. The Church was begun at its present site in 1842, when a deed was secured for the present corner lot. There was an educational building already on the lot, and it has been incorporated into the present building, which was finished in the year 1889.
