**LET US RENT YOU A FEEDER?**  
We here at Nicholas County Feeders Supply are eager to help the farmers in this area MAKE MORE MONEY. One sure way to make more money on handling beef cows is to creep feed the calves. Creep feeding of good quality will bring a premium this fall. It costs about 12¢ to put extra pounds on calves over next fall feeding them. In 50 lbs. heavier calf could bring as much as 5¢ more per pound too. We will rent you a creep feeder, no feeder or cattle feeder. Cattle raisers could feed their calves with little labor with a new cattle steer stuffer. Let us rent you a feeder—we WANT YOU TO MAKE MORE MONEY FROM YOUR LIVESTOCK.

**BABY PIGS NEED IRON**  
Baby Pigs need iron because pigs are born with a small supply of iron in their liver. Sow's milk does not contain iron in sufficient amounts to supply the pig's needs. Baby pig grow faster, their ability to manufacture red blood corpuscles, their iron supply usually lasts only a few days. Anemic pig are listless, they cannot exercise and mouth and nostrils are "chapped" and may die. Those that survive are likely to be unhealthy and carry more iron in their blood. In baby pigs raised on Purina Plus, the remarkable iron feed product from Purina Research can give pigs the iron they need in the form they can use it's non-toxic and costs only pennies per pig. It's palatable—baby pigs like it—start to eat it early—to 3 days of age.
