PRISTINE GOING TO HOLY LAND--Pope Paul VI welcomes seven U.S. priests during a general audience (April 17) and granted their interest in refugees in the Middle East. The seven were participants in a study tour for priests sponsored by the Catholic Near East Welfare Association. They had stopped in Rome en route to the Holy Land, where they will visit the Holy Places, refugee camps and become familiar friends with the work being done by C.N.W.A. associations.

"Lots of upkeep and repairs with our old heating system..."

...now since we converted to electric heat, Mr. Whitney Gross of Warsaw, Ky., "Hand electric heat is so much more comfortable," adds Mrs. Gross. "It seems as though our old heating system was always going on the blink," says Mr. Gross. "It was forever going down in the basement to get the furnace working again. And one other thing -- we'll never miss our old bed."

"Electric heat stays right where you put it," adds Mrs. Gross. "The temperature of our house used to roam all over the thermometer."

Why don't you take that important step to flameless electric home heating? Call our local office. We'll tell you all about it, including all costs. Then you decide.
