Woody Fryman Starts 4th Major League Season

by Allen Waugh

Sometime soon "fireballing southpaw" and Kentucky's own Woody Fryman will leave his home in Ewing to the Philadelphia Baseball club for Spring Training. That is if the players don't strike because of the pension argument.

The Phillies ace hurler won twelve games against 14 defeats last season. After spending two years with the Pittsburg Pirates, Fryman was part of a package deal on the big Jim Bunning trade.

While with the Pirates Woody won 12 games and had only 9 defeats in his rookie year. In his second year Fryman developed shoulder trouble and was forced into a miserable season of 3-8.

Accounting Course

There will be a meeting Thursday, Feb. 13 (tonight) in the Nicholas County library for those persons interested in taking the second semester course of accounting offered by Eastern Kentucky University.

University of Kentucky graduate students will pay $285 per semester for efficiency apartments and $323 for single occupancy, effective with the fall semester, 1969.

Last year the "fast ballin' got a good start but toward the end of the season arm trouble set in and ruined a good bid for 20 wins.

When asked about what he thought was ahead for the Phillies in "69", he said, "Bob Skinner will pilot the club this year and all the players like him, that will make a difference." He said the club would be depending much on the younger players from Skinner's farm club. Woody said a lot of the load would be on Veteran Pitcher Chris Short, as well as youngsters Gary Wagoner and Jerry Johnson.

As far as his own season Fryman added "Like any other pitcher, I'll do the best I can and hope my arm holds up. If it does the season will be good."

Talking with the former Bluegrass League great about professional baseball life he told this reporter of Vernon Law. A former Pirate Pitching Star Law was a Mormon preacher. Fryman replied "It was an honor to live with such a man as Vernon Law. He really lived what he preached and men like him makes baseball the game it is.

Fryman left some advice for young pitchers. He said, "Don't worry about the curve, sinker, and knuckle ball yet. Right now strive to control and to get the ball over the plate. Control is the important thing, the rest will come with experience.
