Confronting the Issues

By S. C. Van Cavan

In our country we advocate private enterprise and endorse the profit motive...

Three-fourths of the land making up the nation's contiguous areas is privately owned...

The men and women entrusted with the leadership of America's 5,000 soil and water conservation districts are turning the corner...

People are entitled by their aspirations, just as they are by their responsibilities...

People and example— With more people in more places...
