"By moving into our electrically heated home," say the Wiggins of Barlow, we moved away for good from many extra heating costs."

It's great not worrying anymore about heating service contracts, maintenance and repairs," says Mr. James Wiggins. "Our electric heat has real economies built into it."

"Real peace of mind, too," adds Mrs. Wiggins. "Along with more economies I'm well aware of — like less cleaning of my drapes and furniture and very seldom redecorating. Being flameless, our electric heat just can't make any dirt. Only wonderful comfort."

Before you build, buy or remodel ask our local office all about electric heat and its reasonable cost. Flameless electric heat won't burn a hole in your pocket!
