Estimated Tax Due April 15

Louisville--If your total estimated income and self-employment tax for 1970 exceeds your income tax withholding by \$40 or more, you should file a declaration of estimated tax.

Complete instructions on how to file can be found on Form 1040-ES, which was sent to everyone who filed a declaration last year and others, who according to IRS records probably are required to make a declaration.

Mr. Dath said vouchers and pre-addressed envelopes were included in the package for the taxpayer's convenience.

Estimates for 1970 are due by April 15, the same date that 1969 Federal income tax returns are due.

A copy of the 1040-ES Form is available at local IRS offices for those who need them but did not receive copies in the mail.

Mr. Dath said now is the time to start working on your income tax returns. This will help you avoid the last minute rush if you run into something you are not sure about and need more information.

Those who fill out their tax returns early avoid the risk of making costly errors because of haste and carelessness.
