1971 Farm Program Information Released

New information on the 1971 farm program has recently been announced according to Jack Welch, chairman of the Kentucky State Agricultural Stabilization and Conservation (ASC) Committee.

Final determinations on set-aside acreages have not been made, but a tentative 20 percent domestic wheat allotment has been announced.

Final set-aside percentages will be made before March 1. The ASC Committee chairman said.

NFO Program Outlined

A multi-barreled program to raise farm prices was outlined at the annual national convention of the National Farmers Organization which ended in Louisville, Friday evening, Dec. 18.

Delegates returning from the three-day affair reported "the mood of determination, solidarity and spirit of purpose" ever exhibited at an NFO convocation.

The theme of the convention was "NFO: The Farmer's Only Hope." National president Oren Lee Stanley brought the 12,500 delegates to standing ovation 10 times as he outlined the plans ahead for the organization in his State of Affairs message.

"After Jan. 1, the NFO will initiate a Commodity Lift in red meat, grain and specialty commodities," Lee said.

Under the lift plan, huge blocks of farm production will be lifted out of selected areas where the price pinch is great and transported for sale in other areas.

"To create vacancies to start stair stepping prices," Lee said.

In addition Stanley said vertical integration and packer feeding must be stopped and NFO will cause to have introduced in Congress a bill that will define agriculture, the food industry and the processing industry.

"We must quit a federal anti-trust laws which prohibit sizable companies from becoming involved in more than one sector of the food industry," Stanley said.

The NFO president said the NFO will use every economic, legislative and legal weapon at its command to claim justice at the market place for farmers and ranchers.

Eagles Sighted

Immature bald and golden eagles have been sighted in the Skyview Ranch area near the river recently.

The first sighting reported to Dr. J. T. Morford by Taylor T. Mathers was when Mathers and a companion were going down river near the ranch.

Dr. and Mrs. Morford on Wednesday, Dec. 23, sighted two golden and immature eagles. And Mrs. W. K. Kingsolver and children saw one from the road on Thursday.

Anyone sighting these large and rare birds in this area are asked to contact Dr. Morford or the Mercury.
