**Telibrating - A New Hobby**  
 The Donovon Club at the University of Kentucky has among its members a group that has adopted an unusual hobby. The Donovons are those in the U.S. Donovon Program--persons age 65 and older enrolled in classes at UK--and Emeriti--retired professors.  
 The hobby they claim for life is telibrating. The hobby is telibrating, especially those filmed in the western plains and in the mountains. They call it telibrating, and when they hear a particularly interesting bird song in the background of a tv show, they across a continent may be shortgag report their experience to their fellow clubbers. They say, "A bird song in your living room!"
