But it is also the man who takes his day with an amphetamine for his job on a two-span bridge near Irving, Route 1, on Monday.

There Is A Difference, It Says Right Here

"There ain't no difference between a Democrat and a Republican," a buddy of mine was bemoaning the other day. That got me to thinking. Somewhere I had read a definition of it. It says the way you can tell them apart."

THE PLED TYPER

By Donald Brady

Democrats are always living out new paths to the future, which they never follow. Republicans follow the paths laid out by their fathers. They are always living out new paths to the future, which they never follow.

When you buy a new car today, you'll probably get a manual of instructions, with it. It will tell you how to drive a new kind of car, how to pass a new kind of car. It will tell you how to drive a new kind of car.

The money we spend here in our own community brings a higher standard of living and more opportunities for all of us through greater dollar turnover.

Dollars that keep circulating among us help our individual and collective economy as much as new dollars coming in.
