THE NICHOLAS COUNTY HOMEMAKERS ASSOCIATION climaxed their membership drive emphasis, "Be All U Can Be" with a tea, held Wednesday afternoon 3-4:00 p.m. in Fellowship Hall of the Christian Church. Mrs. Stanley Alexander, County membership chairman and Mrs. Reese Smoot, County president served at the punch bowl. Mrs. George Dale, Bluegrass Area vice-president was in charge of decorations. The color scheme was yellow and bronze. The bee hive was surrounded with yellow spring flowers. A large queen bee ruled the hive of fellow workers. Some of those attending were, standing left to right: Mrs. Stanley Alexander, Mrs. Reese Smoot, Mrs. Jack Tincher, Mrs. Russell Shrout, Mrs. Omer Berry, Mrs. Reese Smoot, Mrs. George Dale, Mrs. Veach Delaney, Mrs. Grimes Caywood, Mrs. Albert Henry, Mrs. Frank Henry, Mrs. Laura Pumphrey, Miss Lucille Buntin, Mrs. Stanley Alexander, Mrs. Ermine Ritchie, Mrs. W.W. Rigg, Mrs. Eugene Smoot, Mrs. Thelma Fryman, Mrs. Bob Hamilton, Mrs. Russell Shrout, Mrs. Geroge Dale, Mrs. Eugene Neal, Mrs. Charles Watkins, Mrs. Emmett Darrell, Mrs. Lida Mae Wade, Mrs. Reese Smoot, Mrs. Margie H. Wilson (County Extension Agent), Mrs. Stanley Alexander.

NURSING HOME NEWS *from page four*

took him for a drive to Millersburg, to see his friends.

It's nice to have Joe Burden and J.P. Barbee back from the hospital. At present, there is not a home resident in the hospital.

One day last week, several of the girls of the Assembly of God Church made pretty favors, containing plastic flowers and appropriate Bible verses and brought them to the home. The residents appreciated these very much.

Rev. Herman Kalmage of the Catholic Church had charge of the weekly worship service. He gave a Bible reading, short talk, prayer and sang a couple of solos.

It's been quite a while since we've heard from the good helper, Ann Mae Gillispie. We are still interested in Anna Mae. We are also looking forward to nurse Jane Scott's return.

The pioneers who blazed the trails now have decendents who burn up the roads.

For the man who has everything: a calendar to remind him when the payments are due.

God has made everything beautiful in its time.--

Ecclesiastes 3:11

Mrs. Cora Caunce was very troubled about her nephew, Paul Criswell of Lawrenceburg, Ind. She felt sure he couldn't be found, but a few lines on a five cent post card caused Paul to immediately make a long distance call to tell Aunt Cora that he was well and would visit her when he could. Paul said a short while ago he called at the home to inquire about his aunt and soon after received a nice letter from Attorney Joe F. Conley.

Mildred McIntyre of Lexington visited her grandmother, Mrs. Lettie Myers on Sunday.

When success turns a person's head, he is facing failure.

There's one thing about baldness--it's neat.

There haven't been many visitors around in the last few days. Some of the old folks agreed that their friends and relatives must be making garden.

It is hope that makes our lives worthwhile; Though all else may be gone; Hope holds her torch before our eyes, A challenge to carryon.

Winter Damage Worst

State Highway Commissioner Eugene Goas believes damage to state roads by last winter's severe weather was "the worst in recorded history."

This was the reason, he said, the highway department was forced to raise its budget for primary-road resurfacing this summer to $4,176,000 from an estimated $2.2 million.

Another record, of a different kind, was also set when the highway department opened bids April 24 for a one-day total of about $33.8 million in road projects.

The previous record high in openings on a single day, Goas said, was $22 million on Feb. 16, 1968.

What's New In Equipment Today

REFRIGERATOR--Sizes vary from two to 25 cubic feet. The installation used today gives a larger capacity on inside in the same outside demisions.

Some people are buying compact units for bedrooms or recreation areas combined with stereo phono and radio, or in a wood like server with bookcase and counter top.

You will find almost any color or you may choose a model with removeable door panels to create your own decorative scheme.

One manufacturer has a reversa-door feature so you can change from left to right openings. There is a 3-door model with one section to be changed by controls from freezer to fresh food storage as your need dictates.

Ice makers are here to stay. One manufacturer now has a dispenser on the outside for water and ice either in cube or crushed condition, another make will deliver ice through a bin on the freezer door.

Eighty percent of all refrigerators sold last year were no-frost models.

Many manufacturers are using rollers so a woman can clean behind and under the refrigerator. Side-by-sides refrigerator freezers amounted to approximately 20% of all refrigerator sells in 1969.

This percentage will increase in 1970.

RANGES--First and foremost is the self-cleaning feature of the oven. Practically every manufacturer is making some type of oven cleaning range in both gas and electric models.

The oldest method "pyrolytic" or "heat clean" method originated special controls and extra insulation necessary to obtain an oven temperature in excess of 830 degrees. This high heat cleans oven completely in from one to three hours, depending on the manufacturer.

The "catalytic" types or "continuous clean" was introduced in 1968-69 models. This type has an oven liner or panels coated with a catalyst which requires special care on the user's part. Soil is not removed immediately but disappears gradually, as the oven is used for cooking, but will take on fresh soil from foods cooking during that time.

The pyrolytic type usually carries the higher price tag because of safety controls and extra insulation.

not new for '70, but gaining in popularity is microwave or electronic cooking. The late 60's brought the first portable or counter-top microwave ovens. They use 120 volts and can be plugged into an appliance outlet. This year we will see four or five new portables. In addition, there will be many Japanese and European models in portables.

Counter-top ranges were introduce now on the market. There are four thermostatically units on this flat cooking surface. One of these counter-top ranges has an oven underneath.

BILLY WINS AGAIN--Billy Gardner, a junior at Fleming County High School, Flemingsburg, has repeated as winner of the Northeast Kentucky Regional Science Fair at Morehead State University. He will take his project on x-ray therapy techniques in the oral cavity to the International Science Fair this summer in Baltimore, Md. Billy went to the fair last year in Fort Worth, Texas. His teacher, Lloyd Story Jr., will accompany him. Billy is the son of Mr. and Mrs. Bruce Gardner of Flemingsburg.
